LATEST FROM THE EAST.

DATES TO MAY 23D.

New York, May 21.—Army of the Potomac, 20th, 6 p. m., yesterday the enemy left Spottsylvania, and made a detour west across the river Ny, and struck the Fredericksburg road near our right flank within three-fourths of a mile of Meade's and Grant's headquarters. The only troops we had on the ground at the time were two regiments of Tyler's brigade. Tyler brought up the remainder of his force, met the rebel attack and drove the enemy back to the woods. Considering the rawness of the troops, when once fairly under fire they showed the utmost bravery. Their loss was quite heavy, and will probably reach 1,000 in killed, wounded and missing. The rebels gave way in confusion.

New York, May 21.—The rebel loss must have been very heavy in proportion to the number engaged on the 19th. Their dead and wounded lay quite thick on some por- tions of the lines. The rebels withdrew from their position in our rear, under cover of night. Our old flank movement to the left was resumed again yesterday morning. Lee is believed to be leaving his entrenchments around Spottsylvania for one further south and east of them.

Bermuda Hundred, May 18th.—The Rich- mond Examiner says the enemy have con- centrated in Virginia. If beaten there they are beaten everywhere. If they win they win everything. The war and the Confederacy might continue, but if Virginia be lost the present Confederate organization will not probably survive.

New York, May 20.—Intelligence has been re- ceived that the Spanish fleet has taken possession of the Chincha Guano Islands, and raised the Spanish flag.

A Key West correspondent of the 12th announc- es the capture of Tampa Bay, Florida, on the 4th. On nearing the town, our troops charged at the double quick and surprised the inhabitants. It was found that the rebel troops had left the day before to reinforce Lee's army. A few pris- oners were taken. One blockade runner was captured and the fortifications destroyed.

New York, May 21st.—Howard, formerly an attache of the Times, has been arrested. He confesses the authorship of the recent bogus proc- lamation, and says he palmed it off on journals here for gold and stock operations.

Cincinnati, May 21st.—Sam Medary was arrest- ed on indictment for alleged conspiracy with the parties arrested here some months ago, charged with an attempt to overthrow the Government.

A Western Virginia correspondent says that Gen. Crooks' command is slowly falling back af- ter accomplishing its object. He destroyed a large amount of supplies, and damaged the East Tennessee railroad beyond the possibility of re- pairs for three months. Gen. Jenks, who was wounded and captured, has since died.

The pirate Florida destroyed the ship Acton of Boston, on March 29th.

Washington, 21st.—Dispatches from Sherman state our forces found in Rome, Ga., large amounts of provisions. We have secured two good bridges and a ford. Etowah cars run to Kingston.—Banks' gunboats had got over the dam at Alex- andria, and Admiral Porter had arrived at the mouth of Red river. Banks was expected at Semmes Point on the 16th.

Washington May 21st.—Dispatches from Butler 20—p. m., report that he had been fighting all day—the enemy endeavoring to close in our line. The rebel General Walker, of Texas, captured.

Advices from the army say that Lee's army is much less than has been estimated, it having been greatly reduced in the recent battles. The rebel loss in the battle of Thursday, 19th, 1250 killed and wounded, besides 450 prisoners.

Sixty citizens of Fredericksburg, have been ar- rested and will be held as hostages for that number of our wounded taken by them and sent to Richmond. On Friday evening the 20th, Gen. Grant commenced a movement for the purpose of compelling Lee to abandon his position near Spottsylvania—the details of which should not be made public. Longstreet's corps started for the south at one o'clock on the morning of Saturday, 21st. An hour and a half later Gen. Hancock moved, and Ewell's corps followed Longstreet last night. The indications are that the rebels had fallen back beyond the North Anna. Gen. Grant's movement has thus far been accomplished without any engagement or serious interruption. We now occupy Guinney's Station and South Matap- pony, on that line.

New York, May 22.—Our troops were moving all Friday night to a new position. The General's Headquarters were broken up on Saturday, and nearly the whole army is in motion.

Richmond papers state that their losses in recent battles was 20,000, and as usual, claim a victory. They acknowledge the loss of 10 guns.

New York, May 23d.—The rebel army has been retreating since the attack, on our right on the 19th. At 4 p. m., on Saturday, our forces occu- pied Guinney's station and Bowling Green, and not enough rebels have been found to fight with. Correspondent with Butler writing on the 20th, says: On the 18th the rebels advanced on our en- trenched lines, across the Peninsula, but were driven back. Our wounded will probably number 150. Towards dark the rebels made attempt to force our skirmishers from the road, without suc- cess.

Fortress Monroe, May 23.—At noon yesterday the pickets on our left, on the Appomattox, were driven in and quite an engagement occurred. The enemy got the worst of the fight and retired.

Albany, May 23d.—Gov. Seymour has directed indictments against all persons who were engaged in seizing the offices of the World and Journal of Commerce.

Washington, May 23.—The Army of the Poto- mac is now fully as strong in numbers and better equipped than when the campaign began. Several thousands of reinforcements have also been for- warded to other armies in the field. During the same time over 30,000 volunteers for 100 days have been mustered into service, clothed, armed, equip- ped and transported to their respective positions.

In the House, Coffroth, of Pennsylvania, intro- duced a resolution, that with the concurrence of both houses, Congress shall adjourn on the 6th of June—adopted.

LATER.

By the arrival of the Salt Lake Express on Thursday, five and a half days out from Salt Lake, we are in receipt of Eastern dates to the 25th.

But little has been received with regard to Grant's last movements, &c. Stanton having re- quested the papers not to publish anything with regard to it at present. Gen. Butler's dispatch boat arrived at Fortress Monroe on the 24th, and reports no fighting since Saturday night. The Richmond Enquirer estimates the rebel losses in the fight with Butler last week, at 15,000. Noth- ing stated with regard to the present position of Beauregard and Butler.

ONE of a party of soldiers, lately scouting after Indians south of Canyon city, writes to the Oregonian as follows of Harney valley:

"Harney valley, as by common consent we called it, is, I should judge, 80 miles long by 50 broad, and about 6,000 feet above the lev- el of the sea; about half of its area is occu- pied by Harney Lake, which lake is constant- ly fed by several large streams rising in the mountains and flowing through numerous canyons on every side of the valley's circum- ference. The lake does not appear to have any outlet; and later in the season is proba- bly of much less size, as many of the streams flowing towards it sink; its waters are said to be very alkaline, of which I had no oppor- tunity to judge, but which is probable, as I observed the peculiar alkaline incrustation on the greater part of the valley which we trav- eled. The valley, with the exception of lit- tle portions of it, extending into the canyons, is a vast, sterile sage plain, almost entirely destitute of game though we saw a few an- telope, jackass rabbits and sage chickens. Hot or thermal springs are said to be numer- ous in the valley; though I saw but one, it was steaming away finely, indicating a rather unpleasant proximity to regions unmentiona- ble. The bluffs and table land in the midst of the valley look like islands at sea, and strongly favor the idea that the whole ex- panse of the valley was once an inland ocean. The mountains surrounding the valley at this time of the year are all snow covered; the greater portion of them probably throughout the year."

HEENAN USED UP.—The New York cor- respondent of the Call, says the last steamer, brought private news from London—from which it appears likely John C. Heenan, the "Benicia Boy," will never be apt to recover from the alleged "drugging" he suffered at the hands of King's friends, to enable King to win the victory. He is now subject to convulsions, and suddenly falls down in the street in fits, while out walking. His race is run, they say. His day is over. He talks of returning home, to California, to die.

THE SMALL-POX REMEDY.—The small-pox remedy which cured three thousand cases in England, taken in all stages of the disease, is so simple that it cannot be too widely dis- seminated. It is: Cream of Tartar, three- fourths of an ounce; Rhubarb, 12 grains; Cold Water, 1 pint. The dose is from a quarter to a half a pint. In severe cases a half pint dose should be administered. In cases characterized by delirium great benefits had been obtained by applying a bottle of Hot water to the feet.

IN Icetown, opposite St. Louis, which was built on the frozen river during the "cold spell," a barkeeper built a fire in his tent and sat before it on a three-legged stool warming his shins, when the fire thawed a hole in the ice and the man fell through, and has not yet reappeared. His assistant, a verdant Irish boy, was asked where the proprietor was, and replied, "Faith, he's gone into the cellar."

THE O. S. N. Co. are erecting a line o telegraph from the Dalles to Celilo, a dis- tance of 14 miles, to be used for the accom- modation of the steamers and cars. A line is also in contemplation from Portland to Olympia, on the Sound.

THE AGES OF THE PRESIDENT'S CABINET. —Lincoln is 54 years old; Seward, Secreta- ry of State, 63; Chase, of the Treasury, 55; Wells, of the Navy, 65; Bates, Attorney General, 76; Blair, Postmaster General, 51.

PRENTICE, of the Louisville Journal, has been elected by the Legislature, State Print- er of Kentucky.

A TRANSFORMATION.—The Sixth street Presbyterian Church, Sacramento, is being converted into a Jewish Synagogue.

"ON THE ROAD TO POVERTY."—Is the ex- pression used by the Oroville Union, in regard to persons emigrating to the Boise river country.

PORT OF ENTRY.—A bill has passed the U. S. Senate, making Portland a port of en- try.

It seems to us that the expression "offi- cers and men," is far from being complimen- tary to officers.

Two Monitors—the Etlah and Shiloh—now building at St. Louis, will be completed in July. Each has a turret with an internal diameter of 20 feet.

A light obtained from magnesium is now produced by the process of Soustadt, and is beginning to be used for photographic purposes.

The English papers express the opinion that the Danish difficulties will cut off the usual supplies of grain from Eastern Europe This will help our markets.

Boise News.

SATURDAY, JUNE 4th, 1864.

WE direct attention to our Owyhee correspondence this week—it is full, reliable and interesting.

ACQUITTED.—Wm. Duff, who had the cutting scrape with Patrick Lovelock in Ellen Smith's house two weeks ago, was examined during the week in Justice Walker's court and acquitted.

PARDONED.—Henry Woods, sentenced at the last term of the District Court of this county to six months imprisonment in the county jail, on conviction for obtaining goods under false pretenses, has been pardoned by Gov. Daniels and set at liberty.

CUSHING of the "Colorado," has on hand, and is receiving direct from San Francisco, a large and choice lot of fine wines and liquors which are for sale in any quantity, from original packages to a thimblefull. Physicians and invalids can find a superiar article of Port or Sherry at Cushing's Colorado.

HORSE-THIEVES.—Two men who have been ranching near Boonville—one by the name of Ryan, and the other's name we have not learned—ran off last week, taking the whole band of horses and mules left with them to ranch, some 60 or 70. They were followed and brought back by some miners, and when our informant left Boonville, indications were favorable for a hanging frolic.

GOOD PLACE TO LIQUOR UP.—E. K. Shed, one of the most experienced and popular saloon men on the Pacific, late of Shed's Saloon in the basement of the Masonic Temple, San Francisco, has charge of the retail department of Geo. C. Merritt's establishment, on Main street, next door to the Montana House, and is serving out liquors that would tickle the palate of an epicure.

Should you ask us how we know it,
How we found it out to blow it—
We should answer, we should tell you:
We have tasted of the liquor!

SHIPMENT OF QUARTZ.—Mr. Williams, agent of the Great Consolidated Boise River Gold and Silver Mining Company, shipped last week to the Company at San Francisco, one ton (2000 lbs.) of gold and silver-bearing quartz, from the Landon lode, of an average quality. The pack-train of Herr & Co. took the rock from this city for Umatilla, on the 30th ult. This is the largest and most important shipment of rock as yet from Boise Basin, and will be very apt to cause some of the San Franciscans to have an attack of "quartz on the brain."

MEDITATED ESCAPE.—In the early part of the week the Sheriff and Jailors, becoming convinced that there was some mystery going on in the county jail, concluded to examine the irons on the prisoners. They all appeared to be fast and solid, but in order to satisfy himself fully, Deputy Underwood sent for a blacksmith and had one of the rivet pins punched out of the shackles on Geo. Owen, when—lo, and behold!—it was sawed half off. Owen is in for twenty years for the killing of J. D. Williams last Fall, and as there can be but little hope of pardon for him, he no doubt feels justified in doing what he can for himself. The instrument used in sawing the rivet has not been discovered; it must have been a watch-spring or something quite as thin, or would not have gone into the joint of the shackle.

OWYHEE AGAIN.—"Old Squib" writes us from Ruby city, under date of May 28th, an interesting letter, but it arrived after the letter of "Owyhee" was put in type, and relates principally to the same subject matter. We give the following extracts from "Old Squib's" letter: The Pony Express has made two successful trips from Humboldt to Ruby city, bringing San Francisco papers only 7 days old. They intend to bring Sacramento papers to Idaho city in 7 days, trip after next. The riders report the road full of people bound hitherward, including 4 wagons with machinery. The following is his description of a scene in the streets of Ruby city, daily to be witnessed: "Whips popping, hammers knocking, planes planing, saws sawing, augurs boring, anvils ringing, miners singing, horses running (with fellows on 'em), and bull-drivers swearing." A gentleman has gone to Washoe after a mill owned by him there, which he intends to put up in Third Dist. Fogus & Co., Crane & Co., and another company are erecting mills on their respective ground. Billy Wilson has a saloon at Ruby, and as he is about the only man in the county who wears a white shirt, is looked upon as a sort of prodigy, and is doing well. Horseback-riding is a favorite pastime with the ladies and gents of Owyhee,—while the Roughs amuse themselves by tying [illegible] to dogs' tails and kindred expedients, to make fun. Owyhee is a gay place. About the only really seedy individuals are the lawyers, and Squib thinks their woe-begone looks [illegible] from hard study. Ryan & Rafferty, [illegible] enterprising ranchmen, who stole and ran off the stock on their ranch, are termed by the Owyhee wags, "Oregon Bankers."

THEATRICAL.

Since our last issue several changes have taken place in the theatrical world. G. B. Waldron, the popular Portland and San Francisco manager and actor, arrived on Saturday, with Mrs. Waldron, E. Reeves, Robt. H. Lindsay, and others, who, with Mrs. Douglass, J. E. Myers, Miss Minnie Gillespie, Lane, Hamilton, &c., &c., opened the Jenny Lind Theater on Sunday evening, with Shakspeare's great tragedy of Othello, and has since appeared as Phidias and Raphael in the "Marble Heart," as well as several other leading characters in heavier tragedies than have ever before been attempted in this country. His performances, supported as he has been by Mrs. Douglass as leading woman, have been a real treat to the few that have patronized the Jenny Lind since his arrival. Their rendition of the Poisoner's Doom, on Wednesday, and the Marble Heart on Thursday night, deserved crowded houses, but did not draw them. To-night they will play Victor Hugo's great historical drama—"La Tour de Nesle," or the Chamber of Death; and on to-morrow night, Miss Medina's highly popular 3-act drama—"Nick of the Woods, or the Jibbenainosay," G. B. Waldron as Nick of the Woods, Mrs. Waldron as Julia Doe, Mrs. Douglass as Edith, and Myers as Roaring Ralf Stackpole.

THE FORREST.

Mrs. Getzler is still the reigning Queen at the Forrest, under the management of that indefatigable theatrical patriarch—J. S. Potter. Mortimer, as the Duke of Ramza in the Honeymoon, and as Claude in the Lady of Lyons, has fully verified the assertion that he is an actor of more than average ability. Mrs. Getzler as Pauline, is superior to any that have preceded her in that character. She is more sentimental and better adapted to the piece than Mrs. Leighton, whose exuberant spirit is too apt to find a funny spot even in the most solemn scene—especially if her eye happens to catch that of some equally appreciative cuss in the audience. Potter and the Robinsons have an established reputation and status that it were idle to comment on; they are too well known to require any extended notice. Smith is always good, and perfect in his parts. Improvement is plainly noticeable in Mrs. Sheppard; she deserves credit for her perseverence and study. They play at the Forrest to-night—the drama of "Blackeyed Susan" constituting the principal feature of the bill.

INDIAN OUTRAGES ON THE ROUTE TO HUMBOLDT.—A party of seven men with eleven animals, and a lot of provisions sufficient to subsist them two or three months, left Humboldt city, N. T., in the latter part of April, for the purpose of prospecting in this direction, and while encamped about 60 miles west of Paradise valley, on the 3d of May, they were attacked early in the morning by Indians, and an attempt made to run off their stock. They immediately packed up and started, traveling in the direction of Queen's river until noon, when, considering themselves out of danger, they stopped, and while unpacking found themselves surrounded by from 50 to 100 Indians. J. W. Dodge and J. W. Borton were killed instantly; H. B. Canfield was severely wounded, and when last seen was crawling behind some rocks. Mr. Vannastine was unhurt when last seen, but surrounded by Indians. E. N. Noble was wounded in three places; a ball passed through a portion of his neck, one in his side and another through the groin, as he was mounting his horse—nontwithstanding which he escaped in company with Willet, Gates and J. C. Kindle, who were unhurt. These latter three who have arrived at Mud Springs, some ten miles east of Queen's river, on the Humboldt and Owyhee road, are all that are known to have escaped. Eight of the animals, several guns and all the provisions, fell into the hands of the Indians, but the survivors of the prospecting party succeeded in retaining possession of all the ammunition. For these particulars we are indebted to the Rev. Mr. Hamilton, who obtained them from a gentleman recently arrived from Mud Springs, where he had assisted in dressing the wounds of Mr. Noble.

MINING ITEM.—We have been kindly permitted to copy the following statement of one week's run with four sluices, on the claims of some friends of ours on Bannock Bar. The statement is an accurate account of their business for seven days, and is not over an average week. The claims are well opened, and worked to advantage by men who understand their business:

Whole amount taken out of four sluices for the seven days ending May 22d, '64	$14,777,50
Total expenses during the time	6,979,36
Nett profits	7,798,14

Or to each of the four partners $1949,53. There may be other claims on the Bar paying better than these, and we know there are many not doing so well, but we have no data with regard to the exact amounts being taken out. The figures above, with regard to the claims to which they relate, may be relied on as strictly correct.

THE Alturas Gold and Silver Mining Company, to which we have heretofore alluded, have taken steps to issue certificates of stock in a short time, having sent to San Francisco for a complete set of books and a seal, which they expect to receive shortly. The names of the Trustees of the Company, for the first three months, are J. B. Roseborough, A. Heed and M. Herr. The officers elected at the first meeting of the Company, are A. Heed, President; J. B. Roseborough, Secretary; and D. Wm. Douthitt, Treasurer. The Company have adopted the requisite by-laws, which are too lengthy to publish in this connection. We understand that Messrs. Heed and Douthitt will visit South Boise, and Messrs. Herr and Sheaser will go to Owyhee soon, on business concerning the Company; persons having interests in quartz claims at those points, would do well to advise with these gentlemen, with a view to developing the value of the lodes.

UNION MEETING.

At a meeting of the Boise county Union Central Committee, held at Idaho city, May 28th, 1864, it was, on motion of A. G. Turner,—

M. Murphy's ranch on the Payette; and at such other points as the Board may deem necessary.

And on motion of M. Kelly, it was

Resolved, That primary meetings be held in the various precincts of the county, on Saturday the 18th day of June, 1864, for the purpose of electing delegates to attend a Union Convention at Centerville on the 25th day of June, 1864, to elect delegates to a Territorial Convention. The various precincts to be entitled to the following representation in said County Convention, to wit: —Idaho city, 24 delegates; Placerville, 10; Centerville, 9; Pioneer, 6; Boise city, 5;—and in case of the establishment of additional precincts, the representation of such new precincts to be as follows to wit: Buena Vista bar, 3 delegates; Cuddy's gulch, 3; Walla Walla gulch, 2; Granite creek, 3; Ladies' Point, 2; Charlotte Gulch, 1; and Payette, 1;—and that the delegates at said primary meetings be elected by ballot.

To corroborate the statement, the wild man said, that an old wagon, very old, was lying near a white man's grave; upon this the party started, but have not yet returned. I believe there is an old legend somewhat similar among the people of the Wallamett. The party are out, but I will not say which they will find—the wagon, the gold or the grave.

Mr. D. P. Barnes, and a party of some 38 others, arrived here last Saturday evening, after an absence of some two months prospecting on Raft river, Goose creek and other localities in the direction of Salt Lake. They found some gold in different places, but nothing very rich. Copper they say exists in large quantities in that region, as well as immense quanties of marble of various colors, some variegated and beautiful, but so far from transportation that it will remain valueless until railroads are constructed to take it to market. EASTERN NEWS.

DATES TO THE 20TH.

New York, May 18th.—A correspondent with Butler gives a detailed account of Beauregard's attack on our forces. On the 16th the rebel lines opened with artillery. Shells poured upon our position. A dense fog enveloped the country, and both armies were wrapped in a misty veil. The rebels massing their troops, attacked our right under Hickman. The first blow was dealt with terrific force. Hickman's brigade of the 18th corps holding the right was doubled up and forced back on the next brigade, which was also thrown into confusion. Our men observed a column passing between Hickman's right and the river. Taking him in front and rear they pressed him between the columns, and for a time threw him into confusion. Hickman made a gallant fight as long as he could, but the enemy came upon him so suddenly and in such overwhelming numbers that a successful resistance was impossible. A heavy attack was made on the entire line of the 18th corps, under a feint along the front of the 10th corps. The entire right was forced back some distance. The battle raged with unexampled fury, the rebels throwing heavy masses upon us, forcing us back nearly a quarter of a mile. Our men fought stubbornly—charged the rebel advance with terrible slaughter, but not without some loss on our side. The enemy numbered not less than 15,000, and rushed into our murderous fire with a recklessness and steadiness scarcely to be believed. We lost four guns.

With great exertion, the line of attack was again formed, and again they advanced in splendid style against our lines. Again did they receive a terrible fire, but they pushed steadily on till one-fourth of them were killed and wounded, when they broke, and rushed quickly to cover of woods. After this bloody repulse, they hurled column after column on Hawley's brigade of Terry's division. They came up in the same steady, confident manner, but were received by more rapid and deadly fire by our forces. They then broke and ran for the woods, and were accelerated in their flight by murderous shot and shell.

They seemed determined, however, to break our line and force it from its position. Reformed and reinforced, they again, after 10 minutes, got to work, but were precipitately driven back at all points. That ended their effort to force our position, leaving 1,000 on the field. They then massed upon Smith's position. Gilmore immediately ordered Turner to attack, and Terry to support him. Turner's attack had hardly commenced before Gilmore was ordered by Gen. Butler to retire and to strengthen Smith's corps by forming in his rear.

Our troops fell back slowly and in order, repulsing every attempt of the rebels to hasten our movements, and making a stand at every favorable position, until the enemy fell back to their first lines of entrenchments. The fighting now ceased. At half past two, preparations were made to withdraw our forces from the field and return to the entrenchments. The supply trains were dispatched to the rear, and the entire army fell back, the enemy not pursuing.

New York, May 19.—Richmond papers to the 15th, acknowledge that Lee met with a defeat on Thursday, the 12th, and state that the slaughter was terrible. No particulars were known. The papers add that Jeff. Davis had received dispatches from Lee which had been kept secret.

Chicago, May 19.—The New York World and Journal of Commerce published yesterday morning what purported to be a proclamation from the President, appointing a day of humiliation and prayer; also calling for 400,000 troops. The second edition of the World in common with other city papers, was made the victim of a malicious hoax by some scoundrel when writing a manifold copy for the associated press, and sent to all papers. The Herald printed a large edition, but discovered the hoax in time to suppress it. The World and Journal of Commerce are under seizure by the Provost Guard for this publication, in consequence of which neither offices published papers to-day.

Gold which closed Tuesday night at 179, opened at 184, under the influence, doubtless, of the bogus proclamation.

New York, May 19.—A special to the Tribune May 18th, says: Fighting commenced at daybreak; has grown into a considerable battle. The enemy were found to have massed all their strength on our right, to make another desperate assault to break our lines and get our supply trains. This movement of the enemy occasioned the re-ocupation of our old position of yesterday. The 2d corps occupying the extreme right, became engaged, and the struggle was kept up with severity until noon to-day. Our troops advanced to within range of their earthworks, when a fire of artillery was opened, occasioning a considerable loss; but our guns were soon got into position, and under cover of our fire we charged, took the first line of riflepits, captured a considerable number of prisoners and several of their guns.

Bermuda Hundred, May 19.—On Monday the rebels came out of their entrenchments in front of Fort Darling, and made three advances, all of which were repulsed promptly and energetically, with loss of 1,500, while our loss was slight. Butler having learned that Beauregard was heavily reinforced, and learning from Richmond papers that several miles of the Danville railroad was destroyed, and that the locks, dams and canals leading to Richmond were also destroyed, decided to fall back to Fort Darling, and gave orders accordingly. Our army securely arrived behind our lines of entrenchment. Several of Longstreet's men were captured, who stated that his whole army was co-operating with Beauregard.

New York, May 20th.—A dispatch headed Headquarters Army of the Potomac, May 18th, says: At 5 o'clock this morning the 6th corps, supported by Hancock's division on the right and Burnsides' on the left, advanced against the enemy's works. The rifle pits in front were those which had been abandoned by us and were filled with rebel sharp shooters who were soon dislodged and driven through the second line and behind thick and impenetrable works of most formidable character. On examination it was deemed best not to make an attempt to charge into this barricade, and the troops fell back in good order, exposed to a galling fire of shot and shell from both flanks. Our loss was about 800 killed, wounded and missing. An attack was made by the enemy on the left in the afternoon, where Warren had posted our batteries, and the rebels were soon driven back and their guns silenced. All was quiet at 6 o'clock, p. m.

The Herald's Washington special says the action on Wednesday at Spottsylvania resulted in a success for Grant, in gaining the advantage in his position over the enemy. This was the object of Grant's attack. Our entire loss will not exceed one thousand in killed, wounded and missing. The attack was made to compel the enemy to accept battle beyond his fortifications.

A dispatch from Gauley Bridge gives an account of a brilliant victory by Gen. Averill, on the 8th, with the main body of Crook's army. Averill had reached a point within 4 miles of Witheville, and there encountered the enemy 4,000 strong, under Sam Jones.—The fight lasted four hours, but he succeeded in driving them back, killing and wounding many, and capturing a number of prisoners.

Sam Medary was arrested at Columbus by the U. S. Marshal, and brought to this city. The cause of his arrest is not stated.

San Francisco, May 31.—A very severe earthquake occurred at six o'clock last evening. The walls of many buildings were cracked and the people rushed from their houses in consternation. Gold in New York yesterday 182 and 183 1-2.

San Francisco, May 22.—English letters state that a combined demonstration will be made against the Northern coast by the Confederate pirates as soon as they can get ready. This information is from Confederate officers through special dispatch to the Evening Bulletin.

(Attest) H. J. CROWE,

THE *W. W. Statesman* of the 3d, furnishes the following items:

Two men from Boise rode into town and tied their horses, on the 2d of the month, when very soon another man who had followed them 150 miles, came galloping in and swore out a warrant against them, charging them with having stolen his horses. Search was made, but they had dodged out and gone, leaving the stock behind them.

Rev. P. B. Chamberlain (Congregational) has purchased Ryan's Hall, and converted it into a church.

The mercury stood at 103, in the shade, at Walla Walla, on Sunday, May 29th.

Reports from Kootenai are rather more favorable than those published in the Statesman for some time past. Mr. Geo. Gigey, well known in Walla Walla, had arrived from Kootenai bringing samples of dust. Mr. G. pronounces the mines in that country superior to Salmon or Boise, yet the water is too high to prospect thoroughly. Only a few claims are opened, and men have been known to take out as high as $15, and even $20 a day. There are about 200 men in the mines, most of whom are prospecting for a "big thing." They will not probably be able to prospect the bars before the last of July. Mr. Gigey, who was connected with Mullan's road expedition as expressman, and has traveled extensively in that country, desires the Statesman to correct certain statements in the Golden Age, to the effect that the travel from Walla Walla and below should pass through Lewiston en route for Kootenai. He says Walla Walla is as near those mines as Lewiston is. The Age also asserts that there is stagnant water on the Mullan road, which he pronounces incorrect; he says the water and camping places are good every 12 miles. The distance from Walla Walla or Lewiston, to the nearest Kootenai mines is 400 miles.

Democratic Primary Meeting.

At a primary precinct meeting of the Democracy of Bannock precinct, held at the old Court House building, on Main street, Idaho city, on Saturday evening June 4th, 1864. upon motion, J. L. McGownd, was elected Chairman, and F. Miller, Secretary. Chairman stated object of meeting. Upon motion, resolved that voting be *viva voce* for delegates to county convention. Upon motion, Gen. A. WANTED!

TO raise a company of from 50 to 100 men to prospect at the head of the Malheur river—a country never yet prospected, and supposed to be rich. Each man to furnish his own equipment, to consist of a rifle or shot-gun, one revolver, ammunition, provision sufficient to last 30 or 40 days, saddle-horse, and every two men to furnish one pack animal. For further particulars, inquire of Maj. George F. Ferrend, or Charles Delaplaier, at White's Exchange.

Idaho City, June 8th, 1864.

Boise News.

SATURDAY, JUNE 11th. 1864.

AT the hour of going to press the Salt Lake express had not arrived, but expected every moment with late and interesting news from the East. W., F. & Co. have brought no Eastern news since our extra of Tuesday.

QUIET.—Only two fights occurred at Duncan's corner last Sunday. The mining orator who usually choses that locality to harangue his audiences, was there, "a bright and shining light," and spoke his usual piece, but failed to excite the crowd to fighting heat.

WE observe the workmen busy siding up the large frame on Elk creek, at the foot of Wall street. This immense structure has remained in statu quo for several months, but is now being pushed ahead to completion.—The dimensions are 205 feet front on Wall street, the hotel portion running back up the creek 100 feet.

RAFFLE.—A grand raffle will come off in the Forrest Theater on next Saturday evening, the 18th, during the performance, for three valuable prizes. The first drawing Jas. Bennett's cottage dwelling, on Wall street, with lot 40 feet front by 80 back; the 2d, a lady's enameled gold watch and chain; 3d, a gentleman's heavy silver cased hunting watch. Tickets $2 each, for sale at all the saloons. Watches on exhibition at White's Exchange.

LITHOGRAPHIC VIEW OF IDAHO CITY.—The sketch taken last Fall, by Chas. Ostner, showing Idaho city as seen from West hill, with some 30 of the principal business houses in the margin, has arrived and is ready for delivery to subscribers by H. G. Boisseller, at the Miner's Brewery and Bakery, on Main street. Copies are also for sale and can be procured of Mr. B.

ROSENBERG has removed his Variety Store to Buena Vista, and added groceries, provisions, &c. We hope the public will not pass him by in his new position. The dealer who is not too illiberal as to advertise his business is always a safe man to trade with, and vice versa. Read his new advertisement to-day, and call and see him. Copies of the BOISE NEWS will still be found on his counter.

WATER TANK.—The Hook & Ladder Co., under the direction of H. D. Van Wyck—Foreman—are erecting a large tank on the brow of East hill at the head of Wall street, some 150 feet south of the NEWS office, to be used in case of fire. Hydrants will be constructed at various points in town, and pipes laid from the tank to supply them. A large lot of elegant leather hose, with stop and connection cocks, nozzles, &c., have arrived from below for the use of the company.

INSANE.—Sheriff Pinkham arrested and brought over from Placerville, on the first of the month, a man by the name of John Ramsdale, who is still confined in the county jail, and to all appearances hopelessly insane. Justice Stringham of Placerville, issued the warrant for his arrest, returnable to the Co. Judge, but since his arrival here, his insanity has been so violent that it has not been deemed prudent to bring him out for the purpose of a formal examination.

ADMINISTRATORS of the estates of deceased persons, are required to make a report to the Probate Court of the affairs of the estates thus administered upon, which duty we understand is in most cases neglected. The Clerk requests us to call attention to the matter, and notify persons delinquent in this respect, that by calling at the office of the Clerk and filing said statements immediately, will save costs and trouble.

WE call attention to a card in another place, calling for from 50 to 100 good men to go on a prospecting tour to the head of the Malheur. It is an entirely new field for prospecting, and the parties are said to be experienced mountain men, affording an excellent opportunity for parties who have a desire to take a chance with the discoverers of a new mining camp, to go in and make their fortunes.

FREEMAN & CO., Centerville, have opened a drugstore, as will be observed by their advertisement this week. Johnson, the junior partner in the concern, needs no introduction to the people of this Basin. Everybody knows him, everybody likes him, and everybody will be tempted to take a dose of physic for the sake of patronizing him. The announcement that Dr. Freeman hails from the well-known house of Keith & Co., is a sufficient guarantee that he knows how to compound medicines. Read their advertisement "new this week."

SOUTH BOISE.—Wm. H. Howard, Esq., furnishes us with the following statistics with regard to mills and quartz operations in South Boise: Messrs. Carte & Co. are erecting a steam mill on Bear creek, a short distance below Clifden. The sawmill will be running in about ten days, and they expect to be able to crush quartz by the first of August. Some eight arastras are at work crushing from a ton to a ton and a half to the arastra per day, in Bear creek district. Some ten others are in process of construction, and will be ready to run during the present month. Mr. Howard's estimate of the yield of the quartz that has been and is being crushed, is an average of $150 to the ton, or from $175 to $180 to the arastra per day.

U. S. MAIL.—On Friday last, the first mail, under a temporary arrangement made with Ish & Haley's stage line, arrived in Placerville, and the portion directed to this place was sent over on Saturday by private hands to the care of this office. There being no postmaster as yet appointed for Idaho city, we transferred the care of the mail to H. M. Swinnerton, Esq., who it is believed will receive the appointment of P. M. eventually. Mr. S. will, at the request of many citizens, arrange boxes, &c., for the proper distribution of letters and papers, at his own expense, and as the transportation of the mail to and from Placerville will also necessarily cost considerable, at the suggestion of many who feel an interest in continuing the mail to this place, he has consented to attend to the duties and to charge on each letter a sufficient fee to remunerate him in part at least, for the outlay and trouble until an office is established and provision made to pay the expense. A mail may under this arrangement be expected at least once a week from Auburn, until the first of next month, when Holliday's mail stages are expected to arrive and depart three times a week. A recent letter from Gov. Wallace, asserts that the mail will be carried through the Basin on its way from Salt Lake to Walla Walla. The road is already stocked to Fort Hall, where the Boise and Beaver Head lines divide. Salt Lake papers inform us that it is the intention of the contractor to bring them together from S. L. to that point.

FLOOD.—The tail-race in front of this office, not having sufficient fall, is prone to fill up with sand, causing the bank to overflow occasionally to the annoyance of the denizens of Wall street, who have in more instances than one, of late, found muddy water running about their doors and filling up their cellars. The flume across Gardner's gulch is particularly given to overflowing, and when it does so, the Clerk's and Probate Judge's office becomes almost a floating palace. The Celestial laundry has also been annoyed from the same cause; on one occasion we observed a brawny son of Boodh endeavoring to stay the flood and turn it back upon its fountain with a clapboard, but the incarnate Gaudama in *nir vana* was either powerless, or the disciple's faith too weak to prevent the water according to the laws of nature, from finding its level.

NEW MINING DISTRICT.—About four weeks ago, as we are informed by Mr. Loop, placer mines were struck some 45 miles from La Grand, in what is known as the Eagle creek range. The gold is coarse, and parties are now making in some instances from $50 to $100 per day, and a few of the earlier discoverers took out larger amounts. The district is large, and the people of La Grand are highly delighted with the prospects. Rockfellow has discovered another rich quartz ledge near his place, and is pushing forward the work on the old one.

SURVEYING PARTY.—A letter from Yreka announces the fact that Col. Drew, with a corps of Engineers and 150 troops, would leave Fort Klamath on the 1st of this month, with a full outfit for surveying and mapping the country from Goose Lake to the Jordan creek mines. They have with them a mountain howitzer, and are armed to the teeth. Wo unto the redskin that puts on any scollops with that party.

WESLEY RAY.—If the person whose name heads this paragraph will call at or communicate with this office, he will hear of matters that should interest him. Should this meet the eye of any one acquainted with Wesley Ray, they will confer a favor on his friends by informing us of his whereabouts.

FRANK G. DRAKE, of Drake & Co., Placerville and Pioneer, called on us on Thursday morning, and informed us that a survey is about being made with a view to bringing the waters of the Payette into Placerville district, an undertaking that cannot but prove a fortune to all concerned in the enterprise.

EIGHTEEN wagons left Scott's valley and Yreka for Boise, on the 1st of May, and six others belonging to Wm. Davidson, followed on the 3d, all coming via Klamath Lake. It is time this train hove in sight, but as yet we hear nothing of its arrival.

BILLIARDS.—The lovers of that most elegant and scientific game—billiards—can now be accommodated by calling at Campbell and Spalm's "Bank Exchange." Phelan's marble beds and combination cushions are among the attractions.

A MULE broke through the sidewalk in front of M. M. [illegible]man's drugstore on Wall street, on Wed[illegible] and fell with his cargo—causing qui[illegible] excitement for some time.

OLD BOB [illegible], the contraband banjoist, terpsichorean and [illegible], has arrived, and proposes to [illegible] the people to music. It is said that he [illegible] the banjo crazy, and can out-dan[illegible].

ISH & H[illegible] only 18 miles of horseback trav[illegible] route. Their stages come thro[illegible] matilla every other day to Horse S[illegible], thence the passengers are brought into Placerville by saddle-train.

ROAD AGENTS.—We are informed by Mr. Loop—messenger of W., F. & Co.—that a packer named Smith, and a teamster whose name he didn't learn, were attacked near the foot of the Blue mountains last week, by three strange individuals, who robbed the teamster of all the money he had, and would have served Smith in the same manner had he not taken advantage of an opportunity to strike the thief across the arm with his pistol, causing the rascal to drop his weapon, at the same instant driving the spurs into his animal by which means he succeeded in getting beyond the range of their fire before they could rally and level on him again. At the time Smith executed this strategic movement, his would-be captor had commanded him to "go down" into his cantinas and bring out his money, which command he was feigning to obey, when he suddenly determined upon a flank manuver that completely demoralized the enemy; instead of bringing up a purse, he brought up a pistol, and made a lucky hit. Report says that Theodore White—the Marysville urchin that proved such a terror to travelers last Fall—has been seen on the road again. This boy is perhaps the most dangerous of all the outlaws that have ever infested the upper country,—not because of his prowess and ability to do more than others, but from a want of thieving sense; he has just had enough of success as a thief and highwayman to impress him with the belief that he is destined to be chief of the band, and in order to achieve that end, is represented as being prepared to do almost anything, no matter how foolhardy or desperate. If it be true that he is really prowling on the way between here and the Columbia, he will be very apt to get his wind shut off before Fall. There are too many who know him, and know too what a man's life is worth in his hands, to allow him to run long as an agent on this route.

MINING.—We have taken some pains during the week, to ascertain how different parties are doing in their placer claims. Every one that can command half a sluice head of water is at work, and we think it safe to say that in nine claims out of every ten, where 25 inches are allowed to run, they are taking out an ounce and upwards to the hand every 24 hours, or $160 and upward to the sluice; of this amount, from $25 to $30 is paid for water and $60 for labor, leaving to the claim-owner from $75 to $80 and upwards per day as nett profits. We think a margin of one in ten will cover those that fall below this standard, and of course many run far above it. But we are now making an average estimate based upon figures obtained from practical miners on Moore's creek, East Hill, Bear Run, Elk Creek, Bannock, Churchhill's and Buena Vista Bars. The further we prosecute our investigations in this matter, the more convinced we are of the fact that Boise only wants plenty of water to render it twice as valuable a mining district as it is at present, and that it is already the richest portion of the known world in placer gold mines. We do not believe that there is another spot of the same dimensions on the whole earth—and if there be we are quite sure no man knows of its existence—where there is so much gold so generally diffused through and so near the surface of the ground.

EXCISE TAX.—By reference to the card of Benjamin F. Crossin another place, it will be seen that the Collector is around gathering in the internal revenue. Mr. Cross is the first collector of Government taxes that has ever visited Boise, and collects the assessment made last year by Mr. Ledyard, as well as that now being made by Abner Packard, whom he accompanies. For a year past the officers have been at a loss to know to what collection district Idaho belonged, having been cut from Washington about the time the districts were created. Recently, however, instructions have been sent from headquarters, directing the Collector of Washington district to collect the revenue in Idaho, hence the appearance of these gentlemen among us in the discharge of the duties assigned them. Our experience has always been, that the easiest, quickest and cheapest way to get rid of a tax collector was and is, to pay the taxes and let him go. Congress has purposely affixed penalties of no light character to the refusal either to give in a true account to the assessor, or to pay to the collector, in order that the officers may not be annoyed by people inclined to querulousness.

SALE OF FEET.—An old California friend of ours—Peder L. Gipling—sold forty feet in the Oro Fino Ledge, Owyhee, last week, to May & Francis, for $4,000 in cash—$100 per foot. "Pete" has about $20,000 worth of the same sort left, but designs retaining possession of enough to make him an independent fortune, and is only selling sufficient to meet immediate demands. He has some six or seven thousand feet in different rich Humboldt ledges, all of which he says he would sell for $1,00 per foot as willingly as he takes $100 a foot for his Owyhee stock.

JOHN FORD was arrested in Centerville on the 30th ult., and examined before Justice Depuy on two charges, one for assault with intent to kill one Amedie Prairie; the other resisting and attempting to kill Deputy Sheriff Wilson, having shot at each of them, and having received a shot himself in the groin. He was held in the sum of $1000, and in default is in jail waiting the action of the grand jury.

A CRASH.—While the men employed on the claims of Messrs. Kennedy & Co. were engaged in sluicing out the ground under the residence of Mr. Bates, a hundred yards or so to the eastward of our office, on last Wednesday, the props gave way and let one corner of the building fall a distance of four or five feet, causing a complete wreck. All kinds of dishes, household and kitchen furniture were piled indiscriminately into the corner on the bedrock, in a damaged condition. Fortunately, however, no one was in the house at the time, and the workman had warning of the approaching danger in time to escape unhurt. The greatest damage done to the building was the breaking up of the roof. The walls being built of logs, although thrown down, were uninjured, and are now replaced on a bedrock foundation where the gates of the ditch company cannot prevail against it.

RELIGIOUS INTELLIGENCE.—Services to-morrow morning as usual at half-past ten. Father Mesplie at Pioneer. Mr. Hamilton preaches in Mr. Kingsley's church at half-past 7, p. m. Sunday school at Buena Vista at 9 a. m., and at Mr. K.'s church at 2 p. m.

THEATRICAL.

The Forrest has taken and kept the lead during the engagement of Mrs. Getzler and Mrs. Leighton, supported by Mortimer, Potter, Robinson, Mrs. Robinson and others. The house has enjoyed a very liberal patronage throughout the season; crowded auditories have greeted each performance, and the interest is not abated in the least. Mrs. Getzler's dancing is nightly encored to the echo, and forms an important feature in the entertainments. The season at the Jenny Lind has closed for the present. Waldron and his troupe have played a short season, and done some of the best tragic acting ever seen in "these parts," notwithstanding which they have met with but indifferent success. The public mind is evidently not in a mood for heavy tragedy.

Henry & McGinley have formed a traveling company consisting of artistes of superior merit, and will visit Centerville, Placerville and Pioneer city, performing a few nights in each place. J. E. Myers, stage manager, is a young comedian that never fails to elicit applause wherever he goes. Mrs. Belle Douglas sustains herself in all manner of plays admirably. The longer she remains the greater favorite she becomes; in other words she bears acquaintance well, and the audience never becomes weary of her performances. Mrs. Waldron, Hamilton and Reeves, in their line, are very good; and Bob Lindsay, in addition to being a good vocalist, is progressing finely as an actor. Other members of the company are too well-known to require an introduction. They perform to-night at Pioneer city, commencing with "Sketches in India," and concluding with "Nan, the Good for Nothing."

WARD & Co's STAGE LINE.—Four as fine roadsters as ever made a track in the Basin, an elegant light running coach, and the veritable original Ward as driver, constitute the portion of Ward & Co.'s stage line, that every other day leave the City Hotel for Boise city. Passengers who have traveled with this line, speak very highly of the accommodations, style and dispatch with which they are put through. Mr. Coldwell, one of the proprietors, has the thanks of the Boise NEWS establishment for a large basket full of fresh Boise valley vegetables. A country abounding in such evidences of greatness, must be a pleasant place to visit.

S. T. Hemingway, of the O. K. Store, Buena Vista, of which he has recently become sole proprietor, has an immense stock of goods in store, and invites attention, under the head of "New this week." Read all the new "Ads."

Several light sprinkles of rain have fallen during the week; but not enough to make any material change in the quantity of water in the ditches. As a general proposition, the ditches in this particular locality, are keeping up very well, though we hear of a visible weakening in some instances.

OVER DUE.—A large drove of cattle, several wagons, and quite a company of men that left Red Bluff on the 1st of May, to come by the way of Goose Lake, have not been heard of here, as yet.

SPECIAL NOTICE

Is hereby given to all those persons indebted to the late house of I. D. Huntoon, to come forward and settle their indebtedness at the earliest possible moment. By so doing costs will be saved.

EASTERN NEWS.

DATES TO THE 28TH.

New York, May 25.—We occupy the railroad between the rebel army and Richmond, over which Lee transported all of his supplies. Lee must now either cut his way out of the net-work in which he is entangled, and march his army to Richmond, or crush the army of the Potomac where it lies. Another correspondent says Lee's position is completely turned in front of Spottsylvania, and he will abandon it; and it is now a race who shall first reach the next line of rebel defences—Lee a trifle ahead.

Fortress Monroe, 26.—Gen. Gilmore fought the enemy in considerable force, an hour and half this morning, routing him completly.

Nearly half of Beauregard's forces left him yesterday, and marched towards Richmond, probably, to reinforce Lee.

Washington, 26.—The Republican extra says Lee has fallen back from the North Anna, pursued with great vigor by Grant, who is in the saddle day and night, directing the general movements of the army. We shall probably next hear of the grand conflict for the city of Richmond—before or in the works of that city.

Prisoners say Jeff. Davis and cabinet, left Richmond some days since.

New York, 27th.—Gold 186 and a half.

Chicago, 26th.—Oglesby has been nominated by the Republicans for Gov. of Ill.

New York, 26th.—Andrew, the rioter, goes to Sing Sing for three years.

Washington, 25th.—Dispatches from Carrol church, 1 p. m., yesterday, say Warren has 400 prisoners, Hancock 300, Wright 200, Warren's loss not over 300 in killed and wounded. Prisoners, who are mostly from N. C., are much discouraged, and say that Lee has deceived them. Butler reports Fitz Hugh Lee attacked Wilson's wharf, below Powhattan, garrisoned by negroes, and was handsomely repulsed at 7 this morning. Lee sent a flag of truce to say that if they would surrender, they would be treated as prisoners of war, othewise he would not be responsible for the consequences.

(Signed) STANTON.

Brig. Gen. Gordon, of the rebel army, died on Thursday from wounds received while fighting Sheridan's cavalry near Richmond.

San Francisco, May 27th.—Legal Tenders 58 1-2. Gold to-day in New York, 183.—Steamer Oregon sailed for Portland.

New York, 26.—Our line of advance is due south from Bowling Green to Bichmond. Lee may by forced marches reac[h] there as soon as Grant, but he has a larger distance to travel, and will be exhausted too much to do good fighting.

Washington, 28th.—Dispatches from Grant to the Department, says the rebel army still holds a strong position between the North and South Anna, their forces appear to be be concentrated. It will probably require two or three days to develop their intentions.

[Signed] STANTON.

Chandler of Michigan, Voorhees and Hannegan of Indiana, had a general knock-down fight at the International Hotel on the 25th.

New York, 26.—The Herald's special gives a vivid account of the struggle for Taylor's bridge, over the north Anna. Gen. McLausdin was posted in strong earth-works, determined to hold the bridge at all hazards.

Our forces under General Birney and Cols. Price and Eagan, advanced under a perfect storm of shot and shell. Our artillery opened a deadly fire, tearing up the rebel works, and the redout was carried at the point of the bayonet. The rebels retreated across the river, many being drowned in the passage, the bridge being too crouded to admit of their passage with advantage. At four o'clock and at midnight, attempts were made to re-take the bridge, but without success.

New York, May 26.—The World's dispatch says the entire army is on the south side of the north Anna.

N. Y. 26.—Folly Island dispatches say the 103 Kentucky Volunteers, made successful expedition to Jame's Island on the ...th, surprising the rebel pickets.

Chicago, 27th.—Sherm...'s headquarters were at Kingston last nigh... 22 miles from Dalton and 62 from Atlan...; it is believed that Johnston does not int... to fight again, but is gradually transferrin... his army to Lee and Beauregard.

Cairo, 27th.—Gen. Ban... arrived in New Orleans on the 21st.

Philadelphia, 27th.—A dispatch dated South Side North Anna, ...th, says the rebels are in our front, and that prisoners had been taken, within 24 hours, ...m 13 rebel corps; over 400 were taken fr... Crawford's S. C. reserves. We are but on... day's forced march ... Richmond, in a fi... open country.

Chicago, 28th.—The Missouri Radical Convention has decid... to send dlegates to the Baltimore Conve...n.

Hanover Junction ...th.—There has been no general engagement thus far, 9 p. m.—Skirmishing has co...ed through the entire day; there was hard... an interval when artillery was not heard. Hancock had thrown his entire corps acro... the river. Our advance was ten miles a... a half south on Bull Marsh creek. It is i...ossible without reconnoisance in force, t...scertain the strength of the enemy, but it ... generally believed that after a battle they ...ill again fall back towards Richmond. ...ant's headquarters are at Jerico's Mills on ...e south side of the river. Sheridan's caval... are circling around Richmond, destroying a ...st amount of property, and rendering th... Danville railroad useless. Late dispatche... say the enemy is confronting us in force, a... our right unable to communicate with our ...ght on this side of the right. Warren has c... the Virginia railroad and established hims...f at Noel's Station. Hancock establishe... his line across the Fredericksburg and Potomac railroad in front of the enemy's right. The Richmond Examiner contends that ... is Grant that is retreating and Lee pursuing; that Lee has followed him from the Wilderness, and that although both armies are brought nearer to Richmond, Lee's action has brought it about and not Grant's. Gold closed at New York on the 27th, at 186 and 187. The St. Louis arrived at San Francisco from Panama on the 20th.

EASTERN NEWS.

DATES TO THE 6HT JUNE.

[From the Boise News Extra of Thursday last.]

Washington, June 5.—Friday evening the enemy suddenly attacked Smith's right, of Gibson's divison. The battle lasted half an hour; the enemy repulsed. Smith's loss inconsiderable.

At 6 o'clock p. m., Wilson with his cavalry fell upon the rear of Heep's division which Lee had drawn around to his left, with intention of engaging Burnside. Wilson drove the rebels from their rifle pits in confusion. We lost Col. Posten and Colonel Benjamin; Gen. Stannard was seriously wonded.

On Saturday morning the enemy's left wing in front was found by Burnside to have been withdrawn during the night.

A dispatch from Sherman, dated the 4th, 13 miles of Marrietta, reports his left now well around and covering all the roads from the South to the railroad about Acworth. His cavalry has been in Acworth and occupy in force all of Allatoona Pass.

(Signed) STANTON.

A special dispatch, says a steamer from the White House 3d, brings the report that our army holds the railroad at Savage Station, also a portion of our force had crossed the Chickahominy. The army is in the best possible condition and spirits. They have never in any previous campaign been so well supplied. It is universally believed among the troops and residents in the county around Richmond that the place must fall.

New York, June 5.—Sherridan's cavalry on the day previous, says Tribune, drove the rebels down the Mechanicksville road to within 5 miles of Richmond. Our entire line advanced considerably. The impression prevails that Lee is withdrawing his forces to within the inner defences of Richomnd. His losses within the past two days has been severe. Contrabands report the citizens of Richmond in great fright. Our sixth corps and Smith's forces made a heavy charge on Wednesday, carrying the first line of the enemy's works and taking from 600 to 800 prisoners. An hour later the rebels made a tremendous assault and were frightfutly repulsed and slaughtered. Hancock also repulsed a similar attack, the enemy suffering severe loss. The fighting to the last was desperate. Enemy's loss from 2,000 to 3,000; our loss 400 to 500.

Chicago, June 5th.—A letter from Hanovertown, dated May 31st, has the following in regard to the position of the two armies: Our right rests on the Pamunkey near Hanover Courthouse, some six miles in length almost due south to Tolopatomy creek. Our lines run along the Chickahominy in front, and covering the Virginia Central railroad from Atley's station to Shady grove, five miles north of Richmond.

Washington, June 6th.—Dispatches from Grant's headquarters to the 5th, state that there had been no fighting during the day. The enemy made an attack on Saturday night upon Hancock, Wright and Smith, but were everywhere repulsed. Hancock's lines are within forty yards of the rebel works.—The rebels were busy on Saturday construct-ing intrenchments at Bottom's Bridge. A dispatch from Sherman dated the afternoon of the 5th, at Altoona creek, states that the enemy, discovering us moving around his right flank abandoned his position last night and marched off. McPherson is moving today for Ackworth. Thomas is on the direct road and Schofield is on his right. The enemy had an immense line of works which we have turned with less loss to us than to them. (Signed) STANTON.

New York, 4th.—Our cavalry entered Mechanicsville last evening. Having offered them battle on the Tolopotomy our right wing rests on the Virginia Central railroad; Having compelled the enemy to withdraw across the Chickahominy, Grant has, with his usual celerity, thrown his left wing to the east of Richmond, and is now threatening the crossing of the Chickahominy at Bottom's Bridge. This is now a point of interest.—Baldy Smith arrived in front the White House just in time to get into action and cooperate with our left flank last night.

Headquarters Army Potomac June 4th, 8 a. m.—The cavalry was engaged yesterday in the vicinity of Howe's store. The first attack was made on Hampton's command which was defeated with loss, afterwards attacked Hill's left and then withdrew. We now hold Howe's store. In the fight yesterday Breckinridge occupied the right, Beauregard next, Longstret's corps in the center, and Ewell on the left. The whole of Hill's corps was held in reserve. Their artillery fire was good.—Two of our caissons exploded by their shells, and a number of men and horses killed.

Fortress Monroe, June 3.—A dispatch from Baldy Smith says that the rebels attacked him with three columns and were driven off after a severe fight. Smith took 600 prisoners. Grant is pushing the enemy at every point.

New York, June 6.—The State Committee of the War Democracy of New York, at a meeting held at the Astor House, have reaffirmed a preference for the renomination of Lincoln, and adopted a call to all War Democrats to rally at Baltimore on the 7th; to impress upon the Union Convention the justice, expediency and necessity for the nomination of Daniel S. Dickinson for the Vice Presidency.

Chicago, June 5.—Gen. Crook's army is again in motion for Richmond, and will be added to the army of the Potomac.

The New York papers say that Gen. Hunter's army is to be added to Grant's direct command, and a junction will soon take place.

A large number of troops are being forwarded to Pope's Department.

Some concentrations are going on at the West, every available soldier being sent to Sherman.

Gen. A. G. Smith, with 20,000 from the Trans-Mississippi region is on his way to Chatanooga.

Gen. Canby who is actively engaged in organizing forces, was nearly ready for offensive operations.

Sandy Hook, June 6.—The news of the battles in Virginia produced a profound sensation in England. Rebel loan declined 5 and 6 per cent. Laird's rams have been purchased by the British Government. The pirate Georgia is announced for sale at Liverpool by a private party. The crew were paid off and the stores sold at auction.

The London Times says the rebels had full information of Grant's plans a fortnight before Grant marched. The confederate loan advanced 4 cents.

[The New York Herald correspondent gives a glowing description of the fight on the 1st, too long to insert in this extra.]

Fremont has written a long letter accepting the nomination for Presidency of the convention calling themselves the radical democracy, which assembled at Cleveland O., in May. John Cochrane accepts the nominarion for Vice President on the same ticket. Fremont urges organization of every element of opposition to the conservative policy of President Lincoln, which he says has needlessly cost the lives of thousands of men.

S. F., 6.—The Mexicans have revolted at Sparateras, overpowered the French garrison and butchered all they could find. Gen. Miramon has been sentenced to banishment for preferring a native Mexican to Maxamilian as Emperor.

Portland, June 7.—A frightful tragedy occurred at the Cascades on Monday evening last, resulting in the death of Mr. Edmond Sullivan, the Sheriff of Skamania County, W. T., formerly a resident of this city, and mortally wounding Mr J. P. Dennison. The polls of the election had closed and the vote was being summed up when a row occurred in an adjoining room, and Sheriff Sullivan was requested to quell it, which he proceeded to do. He succeeded in arresting one of the disturbers, and placed him in safe keeping, and attempted to take others, when he was fired upon at the door. He turned his attention to ascertain who had fired the shot, when he came in contact with Edward Bush, at which a scuffle ensued, and he was brutally assaulted and murdered. Mr Dennison received his wound, of which he has since died, from a pistol shot, while endeavoring to assist the Sheriff, the ball entering the back passed through the body into the pit of the stomach. Jarvin J. Bush, Geo. W. Bush and Edward Bush—three brothers—have been arrested for the murder.

Henderson—Union—as far as heard from, is elected to Congress by about 1000 majority over Kelly—Dem.

The Union nominations in the counties of Douglas, Linn, Polk, Josephine, two precincts in Wasco, Clatsop, Jackson and one precinct in Clackamas are ahead about 600, in the aggregate.

Boise News.

SATURDAY, JUNE 18th, 1864.

SCHOOL AT PLACERVILLE.—Mrs. S. G. Cook will resume her school in Placerville on Monday morning next, June 20th.

MORE QUARTZ.—Mr. Hanna informs us that recent arrivals from South Boise report the discovery of new and rich quartz fields somewhere between the Middle and South Boise rivers.

THE Dem. Press says the contractor has the plates of the Comanche all cleaned and painted ready to go together, and ere long the new monitor may be be expected to make her appearance in the Bay of San Francisco.

A FEW more of Ostuer's lithographic views of Idaho city can be had by calling on H. G. Boisselier at the Miner's Brewery and Bakery. A nice present to send to a friend, and can be sent to any part of the world by express at a trifling express.

PERSONAL.—We had the pleasure of a call from Mr. Gray, District Attorney of the 1st District Court of this Territory during the week. He has forsaken Lewiston, and now comes to settle in our city and add another to the long list of practicing attorneys at the bar of Judge Parks' court.

FAVORS.—Wells, Fargo & Co. continue to favor us with bundles of papers from California and Oregon as usual. The Salt Lake Express brings us bundles of exchanges from Nevada, Utah, Colorado and Missouri; and last week we were placed in receipt of very late California and Virginia city papers, via Owyhee, by the Star city expense.

DUNCAN says the people shall'n't be disappointed in not seeing more than two fights on Sunday at the corner any more. He will make it his business to see that they do fight, so that those who come to town to admire pugilistic feats may rest assured that they will be accommodated in future, and if they desire to take a hand in the "manly art," he will try and have them accommodated in that too.

TO BE OPEN.—The road from Dalles to Boise by way of Canyon city was to open by the 20th of this month. The Mountaineer says as soon as the advantages of this road can become known, it will take the bulk of the travel. A packer named Pope, and a civilized Indian, between Canyon city and the Dalles, had a muss and shot each other so that it was thought that neither would recover. So says the Mountaineer of the 7th.

BLAKE & MCCOMMONS' EXPRESS.—This new express between this place and the Owyhee mines is just starting on an enduring basis. They have purchased the express of Hillhouse & Co., and intend to make prompt trips and do a prompt energetic express business. There is not a maneuver connected with the business that they don't thoroughly understand. Letters and packages will find a speedy conveyance by this line, and that of Messrs. Cutter & Co. via Star city, to Washoe, Humboldt and Cal.

MESSRS. EVANS & HANNA, successors to Allison & Kenneday, who own the claims immediately adjoining this office on the south, are still doing well in them. They cleaned up on Wednesday evening, after 24 hours run with three men shoveling in, and one ground sluicing, 44 ounces and $10, making $714—$178,50 to the hand for 24 hours, or $9,25 for 12 hours. Of this amount, say $25 is paid for water and $24 for labor, and the owners have a nett profit of $665 for the 24 hours' run.

DIST. COURT.—The second term of the District Court for the Second Judicial district of Idaho Territory, will be begun and held in this place two weeks from next Tuesday, the 5th of July—Monday, the 4th, being a non-judicial day. Judge Smith of the first District will be on hand to hold the court in case Judge Parks fails to return in time.—Judge P., with his family, is expected by the first arrival of Holliday's stage from Salt Lake.

PROCEEDINGS IN JUST. WALKER'S COURT.—June 14th.—People vs. Benj. Lewis, charge petit larceny; stealing a galvanized watch from E. A. Hopkins. Fined $100 or fifty days in county jail; failed to pay and went to jail. June 15th.—T. J. Favorite charged with manslaughter; waived an examination and gave bonds in the sum of $3000 for his appearance at the next term of the District Court to answer any indictment that may be found by the Grand Jury.

MELODEON TROUPE.—Mr. W. A. Hamilton has organized a Melodeon troupe, comprising the following array of talent: J. E. Johnson—the world-renowned comic singer and delineator of eccentric character; the Webster sisters—charming as vocalists and dancenses; besides those old favorites, Mrs. Sue Moulton, Mrs. Baker, Mrs. Gibson, L. Moulton, Eugene Holman, Tom Gibson, Bailey Simpson, and others. They will open at the Jenny Lind Theater, for the first time, this evening.

KOOTENAI.—We have received an Extra from the office of the Golden *Age* dated 4th of June, containing an account of the arrival of Moses Droullard, expressman from Kootenai, with letters of the 20th of May, addressed to Messrs. Beachy, Downer, Bentley and others. Mr. Droullard foots up the distance from Lewiston to Kootenai city, at 380 miles. Mr. Riddles writes that the diggings thus far are confined to Wild horse creek, where there are same 13 companies at work, who, in consequence of the high water, are unable to do much at present, but the creek is falling. Fair wages have been obtained by carrying dirt in sacks from the hill diggings to the creek to wash. Mr. R. thinks he can safely say there is not a claim on the creek but what will pay from $10 to $15 per day. The prices of grub are as follows: Beans 80 cts., dried apples $1, sugar 75 to 90 cts., coffee 90 to $1,25, flour 50, gum boots would command $25 to $40, if there were any.—Jack Fisher writes to Downer, that he, Pat Moran and others, have located claims on Wild horse, where it pays a little over $8 to the hand in coarse gold. Jack had found the largest nugget that has yet been discovered there, weighing $78,75. Tim Lee writes that he has rocked out as high as $60 to the 120 buckets, and was making an average of $10 when the high water drove him out. He says Lewiston is bound to be the depot of supplies for that country, and that the miners will have plenty of dust when the water falls in Wild horse, Kootenai or Finlay creeks.—The parties who returned to Walla Walla with unfavorable accounts from the mines, had never struck a pick in the ground, and are not on the work.

THEATRICALS.—Chas. Pope, Walter M. Leman and Miss Virginia Howard, have left California overland for the Atlantic States, stopping at Virginia, Austin, Salt Lake, and Denver, to give the denizens thereof a taste of their quality. Ossian E. Dodge, the great, comic vocalist, who made himself conspicuous in New York, by paying the highest price for a ticket to Jenny Lind's concert, is beating along up north in company with Wm. Hayward, formerly of Campbell's minstrels, giving concerts. They were at Yreka two or three weeks ago, and it would not be surprising if they should visit Boise. We were mistaken in the style of show proposed to be brought into this camp during the Summer, by Mr. Aymar. It is his purpose to organize an equestrian troupe, or horse opera, for the benefit of the Boiseites.

CROWDED.—The Forrest Theatre was thoroughly tested as to its capacity to hold an immense crowd of people on Tuesday night, on the occasion of Mrs. Getzler's benefit.—Waldron's Ingomar was certainly charming, a treat worth going miles to witness; and Mrs. Getzler as Parthenia, even transcended her former brilliant successes in similar characters. The theater-going public are justly in raptures with her superb dancing, but she properly belongs and tells with best effect in the legitimate drama.

They did ample justice to the "Lady of Lyons" on Thursday night, and to-night present for the first time—"Six Degrees of Crime, or Wine, Women, Gambling, Theft, Murder and the Scaffold," a grand six-act drama, and six grand tableaux.

WESTERFIELD & CUTTER'S EXPRESS.—This is the name of the express company that has recently started from Star city, Humboldt to Jordan creek. They have the road stocked, and expect to make the trip through in four days. So says the San Francisco *Argus*. We are in receipt of Cal. papers to the 4th of June by this express, they having arrived here on the evening of the 12th, only 9 days from Sacramento and San Francisco.

SALT LAKE CORRESPONDENCE.—To-day we publish the introductory letter of our regular Salt Lake correspondent "Independent," who will in future—provided the mail in that direction proves a success, and brings us later intelligence than that derived from other sources—keep the readers of the NEWS posted on what is transpiring in the East, as fast as it can be taken from the wires at Salt Lake, and transmitted to us by mail or express.

LARGE SHIPMENT OF ROCK FROM SOUTH BOISE.—John Enright of the South Boise Express, furnishes us the following item:

Mr. Wadington sends down by his train for assay in San Francisco, 10,000 lbs. of rock from the Comstock lode. This is the largest shipment of rock we have ever known from Idaho, and will tell either for or against the mines with stunning effect. Parties best acquainted with the ledges in that locality have no fears of the result.

THE office of the Collector of Internal Revenue is with Swift & Keithly, on Montgomery street, where after business hours the Collector may be found by those who have been missed, and who desire to make his acquaintance.

THE primary meeting of the Unconditional Union party of this precinct, will be held at the building on Montgomery street, formerly occupied by Gilbert & Hough as a law office, at 7 o'clock, this evening.

MEETINGS of the Dem. Central Committee and County Convention were held at Centerville on Monday. See the proceedings published in another column.

THE advertisement of Enright's South Boise Express, will be found elsewhere. He is now making semi-weekly trips.

SCARCITY OF NEWS.

The public mind in these war times is hungry for news, a scarcity of which has inflamed and hightened desire in some instances into vagaries, assumptions and bewildering surmises at once ludicrous and amusing. On the arrival of the express from Star city on Sunday night, with Sacramento and San Francisco papers of June 4th, containing Eastern dates to June 1st, a tremendous excitement prevailed, and although there were really no Eastern dates later than those brought by the Salt Lake Express on Friday evening, and by Wells, Fargo & Co. on Saturday, nevertheless a rumor got afloat that there was news in camp later than that contained in those papers, and that we were going to publish it in an extra. Our avowal to the contrary was unsatisfactory. Some had heard that Grant had marched his army into Richmond, while others had it from confidential sources that Lee was bearing down on Washington, with Grant far in the rear trying to head him off. None of those stories, however, being traceable to responsible sources, it was finally settled upon that the "Press" was under the ban of the Government, and that an order had been issued from headquarters at Fort Boise prohibiting the publication of any more Eastern news for a stipulated length of time, in order to effect certain political schemes now supposed to be maturing in Idaho.

"I find people strangely fantasied;
Possessed of rumors, full of idle dreams,
Not knowing what to fear, but full of fear."

One party, as we learn, had actually seen the prohibitory order; was fully cognizant of its import; thought it an outrage, and was willing to stand by the printer while he propagated the news, even in the face of cannonry, musketry and swords; but it is idle to pursue these idle rumors further. Suffice it to say, that whenever by any means we can come into possession of important news from the seat of war that is not for sale elsewhere in town, the people will receive it as heretofore as soon as it is possible to put it into type and send it out. We will not say that should such an order from the powers that be reach us, we would disobey it and brave the authority of the military, but we feel safe in saying that no such order will be issued, and therefore have no fears on the subject.

COMPLIMENTARY BENEFIT TO MR. GEO. B. WALDRON.—The citizens of Idaho and vicinity, to the number of some three hundred, have signed a correspondence tendering a benefit to the popular actor G. B. Waldron, which has been accepted and Monday evening, June 20th, at the Forrest Theater, selected as the time and place for the benefit to take place. An attractive bill is presented for the occasion, consisting of Schiller's thrilling tragedy of "The Robbers of the Forest of Bohemia," with other novelties. Mr. W. will appear in the character of Charles De Moor, and Mrs. Getzler as Amelia. We regret a want of room to publish the correspondence which, including the list of signatures, is very lengthy, embracing nearly all the professional, business men, miners, &c., of the city.

PAINFUL ACCIDENT.—One day last week "Johnny," the little son of Dr. J. B. Atkins, on Wall street, fell from the back door of their residence, a distance of four or five feet into a cut being run under the house by the miners, and struck the edge of a board, fracturing his left leg above the knee. The little sufferer—only about three years old—has his leg boxed up, and bears his affliction with a fortitude worthy of one of more mature years.

LATEST FROM THE EAST.

By the arrival of the Salt Lake Express on Thursday, we have the following additional news:

New York, June 7.—The Times correspondent sends a lengthy detailed account of the operations on Friday, showing that that move was one of the most important ones of the campaign, it being an attempt to push the rebels back from their position this side of the Chickahominy. Though it failed, our army was advancing to a new position. The key of the point which was secured by Barlow's and Gibbon's divisions, was wrested from them by an overwhelming rebel reserve in a strong line of works.

The Herald says of Friday's fight, that it was brief and bloody, but a brilliant victory for the 5th corps.

Washington, June 7.—Dispatches from the headquarters of the Army of the Potomac, dated at 9 o'clock this morning, have been received. An assault was made on Burnside about midnight and successfully repulsed. Yesterday afternoon 100 picked men of the enemy made a rush to find out what was the meaning of Hancock's advancing his siege guns; 9 of the party were captured, and the rest killed or driven back. Private dispatches say gold closed yesterday in New York at 190 1 2 and 195.

STILL LATER.

Johnny McCommons brought the Oregonian of the 10th in on Thursday night, having met W., F. & Co.'s express on the Payette. The only additional news is as follows:

"Marysville, June 9.—Abe Lincoln and Andy Johnson are nominated by acclamation. Fire your guns."

Letter from Salt Lake.

GREAT SALT LAKE CITY, June 2d, 1864.

INTRODUCTORY—VERY EXPLICIT.

Boise Folks, all Idaho, and the rest of mankind—hope you are well, better acquainted. Never having been a stage manager, have nothing on the stump, and are still poor on oratory. Down here, we are all well save the "childers," who have just now a dose of the measles. Offspring, I need hardly inform you, is an institution in this locality—a flourishing institution—so the epidemic is pretty extensive. All our bachelors and those one-horse arrangements" - generally managing to continue the wag of the world, with from ten to twenty children each, ready to keep up family names, titles and estates—with no eye, of course, upon either Joseph or Brigham. The others, not bachelors, all of us are "considerably married" by-the-by, I learned that from Artemus—I've been to be, and that, though not just the time, in seasons like the present, when flour and potatoes are high-priced, is always considered something towards it. Now, this is about—we have told you all we know about ourself" and everybody else, in a general way, and we expect by this time that you have learned all about us. Our *chapeau* refers to ornamanting our wig—getting rapidly bald to finish the statuary of our five feet, eleven and three-quarters of an inch, and an extra fifteenth, and with the now complete picture before you we hasten to notice a few subordinate affairs in "thirty minutes" allotted to us by the Express Agent, Brown, "T. D."

EXPRESS AND U. S. MAIL.

As a general rule for the government of those who started after fortune, whistling that original text "Mind Your Own Business,"—which all gentlemen got rich by attending scrupulously to its philosophy, and we are daily rising in the world, by the same religious observance of the injunction. This benighted world, however, persistently follows in the wake of that old English Tar, who laid his hand over his one daylight and called for the signal not to fight with the "blind one, and then exclaimed he couldn't see it." Now, I have something to say about the United States Mail and Salt Lake Express. By this department, the Express Agent, Mr. Brown, informs me that he sends a large package of mail to Boise, and to other places in that direction; letters that have already made the journey to East Bannock and returned to this city. On nothing is the public more justly severe, than on postal irregularities—business and the dear ones at home are not to be trifled with. His letter to the Postmaster has been handed to me, I pass it over to the readers, the explanations therein are for:

GREAT SALT LAKE CITY, May 29th, 1864.

Hon. STEVENSON, Esq., P. M.—I received yesterday, over 200 letters for Boise with P. O. marks bearing dates including 25th to April 2nd. These have been to Boise and returned! on 2d of June. We shall send these by our first Express to Boise, and by the 11th June they will reach their destination. Perhaps the exertions we have made to inform P. M. at St. Joseph's, and his assistants, as measure prevent similar blunders. If you think anything more can be done to inform others—thus, perhaps, innocently injuring the Ex. Co., and the public—do it; by all means let them that East Bannock is not the name of letters to for Idaho city, Centerville, Hog'em, Fort Hog'em, Boise city—Boise, or Idaho. Perhaps East Bannock may soon be Montana Territory—if not already. I write from your explanatory, to editor of News, would inform the people there, that the detention of nearly 300 of their letters for three months, should not be attributed to the Boise Ex. Co., their Agent, or the P. O. Dept. Thanking you for your courtesy and assistance in putting this affair to rights so soon, as ever, respectfully yours,

THOS. D. BROWN.

By Lack in February, the Postmaster was notified by the Express Agent, sent a communication to the Distributing Postoffice at St. Joseph, and furnished the names of all the cities, towns, diggings, hamlets, &c., supplied by the Boise Express Company, and ordered the separation of that mail, from that of Bannock. Prior to that time, all the mail packages had to be opened here, as there was no further U. S. mail facility, and the Express Agent had no difficulty in dispatching with "regularity, certainty and celerity," letters for West Bannock. The entire batch of letters referred to, in the letter of the Agent here, passed thro' Salt Lake City in the regular mail packages for Boise, which no one here could touch.—The Postmaster and Agent here again telegraphed to St. Joseph for attention to their letters, instructions, and it is hoped the evil and nuisance will be abated.—Separation of the Salt Lake Office, a Distributing Office, is the only certain remedy, and the probabilities are that this will be done before long.

GENERALITIES.

Thirty minutes have been consumed, and I can only add that all is quiet here and the Mormon busy. We are having fine rains and prospects for an abundant harvest are flattering.

Reports from Colorado yesterday, of a fearful disaster to Denver city. A tornado or water rushed down Cherry creek, into the city, washed away about thirty houses and shanties, fine stores, bridges, &c., to the amount one million dollars, and about forty lives. The Rocky Mountain *News* office entirely swept away. It occurred at midnight and created a fearful panic.

Emigration is reported very heavy on the plains—trains of goods without number for Montana and Idaho—coast.

Telegram yesterday—line down; all right down just come in.

SOUTH BOISE TRAIL.

MIDDLE BOISE HOTEL, June 15, 1864.

ED. NEWS—In your item last week in reference to the South Boise Trail, perhaps a wrong impression was made. The trail now used is the Middle trail, and is the right one to use; distance from Idaho to Rocky bar, South Boise mines: 48 miles at most. This is the route that has been used mostly for the past year in crossing the mountains—Some packers prefer to go around by Boise city, a hundred miles further. If the owners of the two bridges upon the Middle Trail—Messrs. Hubble & Co.—the business men of Idaho, and others interested in the matter, would expend a thousand or twelve hundred dollars in improving this route, it would be made a very good mountain road indeed, and hold all the advantages necessary over all other routes. Whether it will be necessary to wait for Messrs Sidebottom, McLaughlin & Newberg to make their wagon-road over the route before it is improved time will develop. Yours truly,

BLAZE & Co.

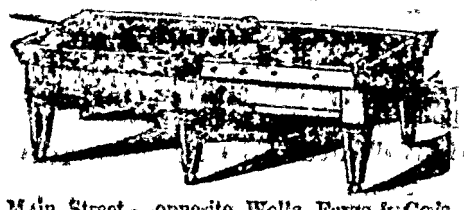

VIRGINIA NAMES.—Late dispatches from the seat of war in Virginia, says the Bulletin, have made frequent mention of the rivers Po, Ta and Nye. These are not laid down in most of the maps in use. They are all branches of the Matapony river which empties into the York at West Point. As you ascend this river to near its source you find it dividing into four small rivers in Spottsylvania county, which are respectively named (beginning with the southermost) Mat, Ta, Po, and Nye—uniting near the eastern line of the county into the Mat-ta-po-ny. The Po passes just north of the Spottsylvania courthouse.

ANVILS were fired in Main and Montgomery streets, on receipt of the nomination of Lincoln & Johnson.

INTERNAL REVENUE

PURSUANT to an appointment and commission as Deputy Collector of Excise under Philip D. Moore, Esq. Collector of the Washington Territory District, the Undersigned is collecting the Internal Revenue in this part of Idaho, for the two years ending May 1st. The law has exacted of me a bond in the sum of $20,000, which is on file in the Department, conditioned for the faithful discharge of my duty. It also requires every business to take a license, and for neglect or refusal the penalty at three times the amount of license, one hundred dollars, and two years imprisonment. For a failure to report correct number of animals butchered, the penalty per head. Three gallons is the line of distinction between wholesale and retail in the business; and one license will not cover both. Merchants selling original packages and wholesale dealers, those breaking packages retailers, and one license will not cover both. Miners are not taxed as such, as has been asserted, but like all other kinds of business are liable to pay an income tax on all over above $600 and expenses.

Deputy Collector of Internal Revenue.

The Remains of Magruder and Party.

The following account of the successful search for the bodies of those ill-fated gentlemen, is published in the Lewiston *Age* of the 11th:

ED. AGE—*Sir*:. For the satisfaction of the reading public, we thought it proper to give a little history of facts in regard to a journey made in search of Magruder and party, or of what little remained of those who were once our dear friends. We left Elk city, 29th May, made Red river meadows, and spent the evening with our friend, George Zeigel.

May 30th.—Made what is known as the Mountain meadows, where we camped. The snow had nearly disappeared, but we were obliged to tie our horses, as there was scarcely a vestige of anything green to be seen.

May 31st.—Made a start at 4 o'clock in the morning; we made Little Salmon about 11 A. M., where we camped, and prospected for grass. In the afternoon we moved camp some three miles up the Little Salmon, where we camped for the night. Page expressed some uneasiness, for he hardly knew where he was, but he left camp and was absent some three hours. While gone, he discovered the little prairie, where they camped the first night after the murder of Magruder and party; there he found the leggins they left, and he knew where he was.

June 1st.—We made a start at half-past 4 A. M. After some eight or ten miles travel we met a Mr. Adams on his way from Bitter Root, and, as he had the misfortune to lose his provisions in crossing the Bitter Root river, he was as much pleased to meet us as we were him. He returned with us to the fatal spot, where Magruder and party fell victims to the demons in human shape. We arrived at the spot after a long and tedious ride. About 4 o'clock P. M., we unsaddled our animals, and proceeded to search for the remains. The first thing discovered was the knapsack of tin-cups, coffee-pots, etc., which I who heard the evidence of Page at the trial of Renton, Lower and Romain, will remember as being described by him; the next discovery were the blankets which were found 'round the bodies of the two brothers; the next discovery was the tent and blankets which Allen and Philips were lashed up in; these we searched with care; we found in the pockets of Allen a portmonie, in which we found two twenty-five cent pieces, American coin, a gold ring, a thimble, and some needles; we also found Allen's watch; we found Phillips' hat; Holt knew it to be Phillips'; Page knew the pants to be Allen's, in which was found the portmonie; we also found pieces of skull bones in this particular spot, and some hair said to be, by those who knew, Allen's; also, the under jaw of Allen or Phillips; we also found the under jaw of one of the brothers, or supposed to be, as it was near the blankets which once encased their bodies; we also found two blue jean coats, in one of which was found the memorandum book, which shows that the two brothers had $1,658,78 on their persons when they started for Oregon with Magruder and party; we found in camp, near the spot where Page saw Allen shot, a piece of his skull, supposed to have been blown off with the shot-gun; we found the quartz specimens, which were taken from Magruder's cantinas, and thrown away by one of the villains; we found the rings, buckles, etc., as described by Page, buried in the ashes; we then repaired to the spot where Magruder received the fatal blow or, we may say, blows, for we found several pieces of his skull, which was literally hacked to pieces. Oh, what an awful sight! He was murdered nearly half a mile from the others; his coat and vest was somewhat torn by the wolves, but enough was left so that they looked quite natural; we then went with Page to the spot where he had thrown the guns; we there found Mr. Beachy's gun, the one he had loaned to Magruder, and found it to be loaded, but the caps had been removed; we also found the gun which Page said belonged to one of the brothers; also, one rifle and the shot-gun which Page said was once Romain's. We found other relics and things much the same as described by Page. It makes the heart sick to think of this horrible tragedy. On our return we went to the spot which had been described by Page, and found the remains of the slaughtered animals. We hope never to witness such a sight again.

OREGON ELECTION.—The Oregonian of 15th, says:

The returns received so far show the following vote for the seat of Government:—Salem, 3,921; Portland, 2,899; Eugene city, 1,306; Corvallis, 246; Albany, 97;—scattering, 40. Henderson's majority as far as reported is 2,673.

ACCORDING to a statistical account of the religious belief of the sovereigns of Europe, out of 43 now reigning, 17 belong to the Lutheran creed, 8 Evangelical, 4 Calvanist, 1 Greek rite, 1 Mussalman, 1 Episcopal and 11 Catholic.

"MOTHER," said a little urchin who was reading a newspaper, "what kind of women are *the women of the pave?* Are they those low-flung women that have skirts so long as to sweep the *pavements?*" "Yes, my child."

Boise News.

SATURDAY, JUNE 25th, 1864.

THE small-pox has entirely disappeared from the Dalles.

BENNETT & FOSTER have removed from Happy Camp to Rocky Bar, South Boise.

RELIGIOUS services and Sunday schools to-morrow as usual. Father Mesplie in Placerville.

DICK WHEELOCK & C. L. HARRINGTON, at Hog'em, have about as fine a stock of goods as you will generally find. Go in and see how they sell things, as you are passing.

FIVE pounds of rock from the Daniel Webster lode, South Boise, were tested in Portland, and yielded $1, being as good as sugar—five pounds to the dollar.

WEAKENING.—The Lynch and Van Winkle ditches are beginning to fail to "give down," to the great inconvenience of many miners wholly dependent upon them for water to work their claims.

GOING AWAY.—We are sorry to have to announce the intended departure of E. N. Sanford, Esq., at an early day for the Atlantic States. Mr. S. offers his entire stock of watches and jewelry at cost.

ANOTHER SHIPMENT OF ROCK.—Williams, Kelly & Co. sent out on the 20th, by Waddingham's train, 8000 pounds of rock from the Confederate Star lode, South Boise, for assay either at Portland or San Francisco.

SALMON AND PEAS.—The International Hotel, Placerville, through its proprietor Mr Burthey, and business agent, J. L. Allison Esq., has our unqualified, sincere and [illegible] thanks for half a huge fresh salmon [illegible] measure of fine green peas fresh [illegible] vine.

VANTINE & EISLER.—It is astonishing with what confidence one can speak of another's brandy after he has tasted it. V. & E. have on hand a splendid lot of liquors, from which we infer that their eatables are also of superior quality. See their advertisement.

FROM ARIZONA.—Joe Tuttle direct from Arizona, came in on Wednesday, by way of Salt Lake, having traveled up through the wilderness almost the entire distance. He represents the Indians in that country [illegible] troublesome.

HEAVY ARRIVAL OF CROCKERY.—Cohen & Bohm received an immense lot of crockery in crates and boxes, one day during the week, in addition to an almost continual accession for weeks past to their large stock of variety goods at the corner of Main and Wall.

THE Oregonian of the 13th, says one-half of the freight brought up by the steamer Pacific, consisted of liquors and sirups in cases and kegs, most of which was marked for the Upper country. The local says he never saw so many kegs on a wharf in Portland before.

NEW DISCOVERIES.—Recently several new ledges of gold-bearing quartz have been discovered near the Landon and Gambrinus. We have been shown, by Messrs. Poujade & Cheeney, rich specimens from the Astor, Banner and Monroe lodes, all rich in gold, and said to be extensive. Arrangements are in progress to procure machinery for working them, and ere long we may hear of a town growing up with the euphonious title of Gambrinus.

MORE ARRIVALS.—A company of several wagons, milk cows, &c., &c., came into Owyhee last week, from Red Bluff, via Honey Lake and Humboldt. Mr. Savers, who had quite a number of cattle in the party, informs us that they were in better order on their arrival here than when they left California.—The grass is excellent all the way. John Shackleford and Lije Hickman were of the party.

NUDD, STANLEY & CO.—The house of H. Webster & Co., San Francisco, has dissolved—H. Webster withdrawing. The firm is now Nudd, Stanley & Co., Charley Lord being the Co. This house enjoys all the advantages of long experience in 'Frisco,' as well as Charley's intimate knowledge of the wants and requirements of this upper country, and cannot fail to be popular with Boiseites who purchase at the Bay. They deal exclusively in fine foreign and domestic wines and liquors.

MUSICAL ENTERTAINMENT.—A grand concert will be given on some evening during the coming week, for the benefit of Rev. Mr. Kingsley's Church on Commercial street.—The best musical talent in the Territory has volunteered, including Mrs. Getzler, and Paston's band; and the entertainment promises to be one of the grandest ovations of the season. The object of those who have gotten up this concert is to assist in relieving the Church of a large debt that is hanging over it, for which the Pastor holds himself [illegible] The entertainment [illegible] church.

Holliday's Stage Line.

At length we are able to state something definite in relation to the mail-route connecting us with Salt Lake and Walla Walla, and through those points with the balance of creation. Mr. Thomas Adams—Agent for Holliday—was in town last week, having, in connection with Mr. Bromley, been stocking the road, establishing stations, &c., between Fort Hall and Boise city. They left Ft. Hall with some thirty ox-teams, and in the neighborhood of one hundred men, bringing with them lumber for building stations, provisions for the men, mowing-machines for cutting hay, and every appliance necessary for successfully operating the line. Mr. A. informs us that he will be in Walla Walla on the 1st of July, where he expects to meet a coach, but in case there is none in readiness, the mail will be forwarded promptly on that day on horseback. A coach will positively leave Salt Lake at the same time, and thereafter it is their determination, in accordance with their contract, to put the mail through each way three times a week. The main line will not pass through this Basin, but will go directly across from Boise city to Payetteville, and a branch line will ply between the Basin and Boise city every other day, carrying the mail.

MORE ARRIVALS.—Henry Gum and a party of some twenty-three others, arrived here on Monday by way of Goose Lake, having left Red Bluff on the 24th of April. They, like nearly every one that has attempted to come by the way of the Malheur, followed the trails of those who missed their way last Winter, and like them were lost some three weeks on the way between Trout Lake and the head of Malheur. When near Goose Lake, on Pit river, one of their party had his leg broken, and they were obliged to take him back to Pit river valley, and on their way met Messrs. Dye & Juliard with some 1200 or 1300 head of cattle, and 25 or 30 men.—This is the train that is bringing material for this office, about which we have suffered some uneasiness. The probabilities are that the [illegible] has taken the same trail and wandered about through the wilderness as has Mr. G.'s party, and as they were about a week's traveling time behind these, we may reasonably expect them next week. This party had no difficulty with Indians—in fact, saw none to speak of.

UNION PRIMARY MEETING.—The Unconditional Union men of Bannock precinct met in Idaho city on Saturday evening the 18th, and elected the following delegates to attend the Union County Convention to be holden at Centerville to-day:

F G Lockhart, Jacob David, Mike C[illegible], [illegible] Sweeney, J C Holgate, P W Lambing, D Thompson, Geo. B Walker, A Phillips, A Foglett, G E Zimmerman, Fred Wallace, B B Hurd, L W Coe, W E Scofield, H J Crow, A T Linville, David Johnson, John Landon, Wm Arts, Wm Jack, W K Leverage, Geo C Hough, S Pinkham.

There were two separate tickets voted for, one headed "Miner's Ticket," received some 141, and the successful ticket, having no particular designation, received 295. These were the straight tickets; there were a few split and scratched that made up the number to 450 in all. The Judges were S. Pinkham, W. W. Brancroft, and W. R. Keithly.

EXPRESS AND OTHER STOCK STOLEN.—On Sunday the 12th inst., while two prospectors Messrs. Turner and Osgood, were encamped on the Owyhee river, the Indians stole their horses. They went to Childs' ferry and borrowed two horses on which to hunt for their own, and when some 14 miles up the stream in a canyon, they were surprised by a band of 14 or 15 Indians and the borrowed horses taken from them, they only escaping with their lives by swimming the river. That night the Indians came down to the express station of Messrs. Cutler & Westerfield, taking two of their express horses.

FINE TEAMS AND WAGONS.—We observed in Main street on Sunday last, four fine wagons, each drawn by from six to eight yoke of large oxen in good order, all belonging to the firm of Bunnell & Miller—hardware, stove and tinmen of this city—and loaded exclusively for the owners with from sixty to seventy-five hundred pounds each. These teams are from the Dalles, and will be kept constantly employed during the coming Summer in bringing up goods, in their line, for Bunnell & Miller.

CORRECTION.—The account furnished us last week of the Union Convention in Alturas county was incorrect. The names of the County Central Committee were substituted for those of the delegates to the Territorial Convention. The delegates chosen to the Territorial convention are as follows: B. F. Green, Thos. Johnson, John Roach, C. W. Walker, W. H. Drake, J. G. Howell and A. G. Cook. The Central committee consists of Derrick, Johnson, Walker, Howell, and Hussey, heretofore erroneously published as delegates.

GARRISON GAMBRINUS.—This company has incorporated and are issuing stock. They have taken out about $1600 with an arastra within a few days, and are the only company we have heard of whose stock is actually selling for more than its face. They have entered into a contract with Messrs. Combs & Co. to build a mill on the ledge, and everything bids fair for a fortune to the holders of the stock.

Theatrical.

The Forrest has everything its own way here. Waldron's benefit on Monday evening was a rouser. He and Mrs. Getzler are still the chief attraction. A first-rate low comedy man—George Pardey, from the Pike's Peak country—has been engaged during the week, and is doing funny characters to the satisfaction of the patrons of the Forrest. Potter and Mortimer are quite indispensable—perfectly at home and good in every position.

Henry & McGinley have engaged Mrs. Leighton for a few nights, and are performing at Kimball's Hall, Placerville. We hope the denizens of Placer may realize and appreciate the fact that they have in their city one of the best traveling companies on this coast, and patronize it accordingly.

TERRITORIAL CONVENTIONS.—The Democracy of Nez Perce county, have elected delegates to the Territorial Convention to be held at "Packer John's Ranch," on the 12th of July, while those of Boise were chosen to meet at Boise city on the 4th. The Union party of Nez Perce, as well as Boise, Owyhee and Alturas, have designated the 9th of July at "Packer John's," as the time and place of holding their convention, though we hear there will be an effort made to change the place to some point in this Basin in consequence of the session of the Dist. Court being held at the same time, making it inconvenient for attorneys and officials to be away from their posts. The same objection will hold good with the attorneys of the Democratic party, and as this county sends some 24 delegates to each convention, and Nez Perce from three to five, and as the counties of Owyhee and Alturas on the south of us will send twice as many as those on the north, it does seem to be justice to the greatest number to hold the conventions in the Basin.

THE WIDOW OF A PIONEER.—Mrs. Grimes—widow of the unfortunate prospector, who, as our readers are aware, was killed by Indians on Grimes' creek, in the Fall of '62, near where Pioneer city is now located—came up from Oregon in the early part of the week to look after the claims located in her name by the surviving companions of her late husband. By some means or other—as we learn—she is not likely to realize much from the well-meant intentions of those who interested themselves in behalf of the widow of their deceased friend. But those who [illegible] the character of the hardy pioneers [illegible] their lives, endure the hardships and brave the dangers incident to a prospector's life in an unexplored region, will not fear that she will suffer pecuniarily in a land where the remains of her husband sleep beside the stream that bears his name, and where he fell in assisting to open up a field of treasure from which many of the number have grown wealthy in this world's goods.

ANOTHER PAPER.—The announcement some weeks since, that W. W. Bancroft was making arrangement to bring material and start a daily paper in this city, was all right at the time, but different arrangements have since been made, and the paper is to be started as a weekly by Messrs. J. S. Reynolds & Co. Mr. R. informs us that he will probably issue his first number in the latter part of July. The paper is to be a political one, devoted to the present administration, and the re-election of Abraham Lincoln to the Presidency.

WATER-WORKS.—The tank at the head of Wall street is completed and the pipe laid into Main street; it works admirably, throwing a stream high and clear over the tops of the highest buildings. This work reflects much credit on Foreman Van Wyck, as well as Geo. McKibben and others who have done the work. Another tank somewhere about the mouth of Bear run in the upper end of town, would render the city comparatively safe from fire. The Wall street reservoir holds 9633 gallons, fed by a flume that fills it in precisely 17 minutes by the watch.

FOURTH OF JULY BALL.—Price & Cromwell will give a ball on Monday evening, the 4th of July, at Pickwick Hall in this city.—No cards of invitation will be issued. The ladies are expected to attend upon invitation of their attendants, without further notice. The ball is gotten up on the subscription principle.

THE arrival of the Salt Lake Express was looked forward to on Thursday with much interest, but no dispatches later than those via Portland came, and much disappointment was expressed. The lines are said to be down about Fort Laramie. T. B. H. Stenhouse is about starting a paper at Salt Lake, to be called the *Daily Telegraph*.

RADISHES AND ONIONS.—Lusk & Fear have placed us under obligations by furnishing this institution with a sack of the tenderest young radishes we ever saw, as well as a string of young Spring onions, from their ranch at the head of Bear run.

SEWING MACHINE.—Mrs. Kelly, at the Montana House, is prepared to do machine sewing of every description in the neatest and most substantial style of the art. Give her a call when you want anything done in that line.

Boise City Items.

Some unknown contributor sends us by the hand of Craven Lee, Esq., who is cognizant of the facts stated in the communication, the details of a sad occurrence that took place at Boise city on the 16th inst. During the afternoon a number of freight wagons entered the town and were discharging in front of B. M. Durkee & Co.'s store, when one of the teamsters, in the act of passing his blankets over the box of the wagon, dropped a revolver which struck on the tire, discharging one barrel, the contents of which entered his neck under the chin and lodged in the back of his head, killing him instantly. The name of the deceased was Wm Sullivan, said to be a native of California but of what part of the State we are not advised. He was much respected among his acquaintances as a good and useful citizen. He was buried on the 17th, Geo. Stilts of this city taking an active part in performing the last sad rites of humanity over the remains of the unfortunate.

PRIZE FIGHT.

Knight, alias "Foot-Racing Dutchman," and Wm. Haywood, alias "Boise Pet," contended for the championship and belt at Boise city on the 16th. A large crowd gathered around the enclosure, all eager to get a sight at the Heenan and Sayers of Idaho. It took money to get inside so as to have a good sight, and many sought eligible positions without the spelter. The whole population turned out, from the schoolboy to the pompous Justice of the Peace, and were on the ground long before the hour for hostilities to begin. Bets were made to a large amount on the pugilists by the respective friends of each. At 3 o'clock, P. M., Knight, with his second and bottle-holder, stepped defiantly into the ring. A moment later, and the Pet with his retinue waltzed in and confronted his antagonist, each looking the very picture of science and endurance.

1st Round.—Pet went down without a blow.

2d.—Pet again kissed his mother, with a slight tap on the back of his gourd. No blood. Knight much fatigued, and Pet still fresh.

3d.—Knight shows more science, and got in a winder behind Pet's lug, sending him again to mother earth.

4th.—Pet came up furiously and dealt three telling blows, planting his mauley full in Knight's face, each time spilling claret profusely.

5th.—Knight went down, Pet punching him slightly in the left rib.

6th.—Clinched and fell, Pet under.

7th.—Clinched, Pet again thrown.

8th.—Bloody and brutal encounter. Pet mashed his antagonist's face shockingly, damaging his daylight. Knight much worried, but still courageous. Pet fresh as ever.

9th.—Another tumble for the Pet, he punching his adversary as he went.

10th.—Pet goes down without injury.

11th.—Pet sounded Knight's gourd and damaged his knowledge-box.

Pet wins the fight, as Knight failed to come to time on the 12th. During the fight odds were offered of $100 to $25 on Pet, but but no takers.

STILL ANOTHER TRAGEDY.

Some eight or ten miles below Boise city, on Saturday last, another of those bloody scenes that occasionally shock the sensibilities and harrow up the feelings of whole communities of people, occurred. The story, as related to us, is as follows:

Two brothers by the name of Lawrence, have been keeping what is known as the Junction House. The wife of Wallace Lawrence, becoming dissatisfied with her husband, left him, and, with her child, went to live with her father, an old man by the name of Smith, a short distance away. On Saturday last, the two brothers went to the house of Smith. Wallace Lawrence went in to endeavor to induce his wife to return to his home—the brother remaining outside. Failing to make any satisfactory arrangement with his wife, W. Lawrence attempted to get possession of their child by wresting it from his wife's mother who had it in her arms;—during the struggle for the child, the old gentleman—father of Mrs. Lawrence—fired a double-barreled shot-gun, killing Lawrence instantly. Upon hearing the report of the gun and cry of murder, the brother rushed into the house and was fired upon and very severely, if not mortally wounded. Smith is under arrest, and confesses to doing all the shooting, though the wounded Lawrence declares that he was shot by another man—whose name we have not heard—and who is also arrested.

FRIENDLY INDIANS KILLED.—Complaints have reached here from the Owyhee country of the killing of seven friendly Indians by Capt. Curry's command, or a portion of it, about 35 miles beyond Booneville, on the 3d of this month, and many charge that it was in retaliation for this killing that the stock was stolen a few nights afterwards at Childs' Ferry. The soldiers seem to have a hard time of it; they are continually killing too many or not enough of Indians, and when they do kill they always seem to get the wrong ones—in the opinions of those versed in Snake-ology. The soldiers are said to be withdrawing from the Owyhee and going towards the head of the Malheur, which is also considered hardly right, or justice to the people of Owyhee particularly, as just at this time a feud exists between the Whites and Indians in consequence of the aforesaid killing.

CHERRIES.—Charley, in front of the Colorado Saloon, has presented this office with a lot of fine ripe cherries. Charley intends to keep on hand all the delicacies of the season as fast as they arrive in the market.

EASTERN NEWS.

DATES TO THE 10HT JUNE.

[From the Boise News Extra of Tuesday last.]

J. L. SMITH, Esq., has our thanks for the Oregonian of 11th and 13th, from which we extract the following:

Washington, June 8.—A dispatch from Charles A. Dana, dated headquarters last night, says the Richmond Examiner of to-day speaks of the defeat of Gen. W. E Jones by General Hunter, 12 miles beyond Staunton. Jones was killed on the field, and his successor retreated to Waynesboro, who now holds the mountains between Charlottsville and Staunton. The same paper further states that no artillery stores were captured by Gen. Hunter. A British man-of-war at Aspinwall reports that the Florida was lying in wait for the Ocean Queen off San Domingo, but missed her, as she was two days behind.

Cairo, June 11.—Guerillas are enforcing a merciless conscription in Kentucky above Smithland, sweeping the country of all the men under 50, especially those of Union sentiments. They respect States rights people, with the exception of helping themselves to horses, mules and supplies. Families are fleeing before the conscription. The steamer Washington, from New Orleans, confirms the report of the blockade of the Mississippi river at Greenville by Marmaduke's forces. Three steamers were lying above Greenville awaiting the result of the engagement which had been going on for two days between the gunboats and batteries. But little if any impression has been made on the batteries. The guerillas have again been committing outrages in Louisana.

Washington, June 11.—The Richmond Examiner of the 8th says, Hunter occupied Staunton, driving the rebels 12 miles. The rumor also prevailed that the Union forces occupy Lexington. The Examiner of the 7th says, last night the enemy abandoned our left and part of our centre.—Impression here is that Grant is making his way to James river, and will cross to the south side.

New York, June 10.—A division of the fifth corps occupies a position on the railroad over the Chickahominy crossing the river two miles above Sumner's bridge. The enemy are strongly posted on the opposite side with heavy guns, which opened fire upon our columns. Our troops moved up and silenced the rebel guns.

Our lines have been somewhat advanced and placed in strong condition for defense.—The enemy are in speaking distance of our lines. Our ranks are being rapidly filled by reinforcements. On the 8th the rebels made a desperate charge on our works and were disastrously repulsed.

Sheridan has gone on another very important raid, which if successful will be most beneficial as it is the most hazardous expedition of the war.

A special from Washington says a deserter who came into our line reports Hunter's victory more complete than the Richmond papers reported. He says Hunter took twenty cannon, many prisoners and a quantity of stores. The force was recently a part of Breckinridge's command. Hunter's report is not yet received.

The New Ironsides has arrived at Hilton Head; a blockade runner attempted to come out on the night of the 6th, but grounded and was completely knocked to pieces. Admiral Dahlgren arrived at Hilton Head on the 7th.

Cincinnati, June 10.—One of Morgan's men captured at Maysville, reports the force in Kentucky under the immediate charge of Morgan, Smith and Ashton, at about 3,000, a large portion being dismounted cavalry.—They entered Kentucky at Pound Gap. A scouting party under Everett had been sent ahead to pick up horses for the dismounted men. They passed through Hazel Grove, Owensville and Flemingsburg, and took Maysville without resistance; robbing citizens. Union men were stripped of their horses,—while persons sympathizing with the rebels were protected.

LATEST FROM THE EAST.

Washington, June 10.—Rebel dispatches from the North of Georgia to date of the 6th state, that the Federal army was still moving toward Atlanta. Hooker's command was fortifying the hills between Ackworth and Atlanta. Late accounts say that the Federal army crossed the Chattahoochie, near Ackworth. Hooker is said to be five miles east of it, on the Altoona road. Johnston's headquarters are west of Marietta, His right under Hardee, is at Lost Mount.

A rebel dispatch from Mobile on the 6th, announces the capture of the steamer Dragon while attempting to run the blockade.

The rebel Marmaduke's blockade on the Mississippi, near Greenville, has succeeded in destroying three steamers, and securing two cargoes.

A Richmond dispatch says the Confederate treasury for the first time in its history is without a dollar to pay anybody, and that there is much grumbling in consequence.

The Examiner thinks that Grant will attempt to take Richmond from the south side of James river, but that he will not succeed.

Louisville, June 10th.—The ordinance train from Frankfort was attacked near Bagdad, by Jenkins. Shakes, a Union member of the Kentucky Legislature, was killed in the encounter.

Cincinnati, June 10th.—Gen. Burbige who has been following the rebels since they left Pound Gap, came up with them yesterday at Mt. Sterling and whipped them handsomely.

A portion of Morgan's command entered Lexington at 2 o'clock this morning, and burned the Central Depot and robbed a number of stores. They left at ten o'clock in the dirrection of Georgetown and Frankfort. Burbige is following them.
